Why is it so fast? Our reel mower can cut almost 100% more grass in less time than a traditional rotary mower. This is because of our Momentum™ technologies, which include a unique reel design and a special cutting system that allows the reel to cut the grass without pulling or tearing it.

Momentum™ Cutting System

What is it? Fiskars' exclusive Momentum™ cutting system uses a unique reel design and a special cutting system that allows the reel to cut the grass without pulling or tearing it.

How is it different? Traditional reel mowers use a standard reel design that pulls or tears the grass as it cuts. The Momentum™ reel design cuts the grass cleanly without pulling or tearing it.

Why is it important? Since the Momentum™ cutting system cuts grass without pulling or tearing it, the grass is left in a clean, healthy state. This means that the grass will grow back faster and healthier than grass cut by a traditional reel mower.
