access to almost 100 000 names and addresses of contacts throughout the network of Canadian institutions **Before the Rapture** Julius A. Agbor, 2017-05-15 A textually meticulous account of the end of days that should appeal to devoted Christians Kirkus Reviews This would be a helpful resource for some in an adult class or small group study Rich Guerra District Superintendent SoCal Assemblies of God It is a well thought out and interesting study that is unmistakably saturated with thorough and well defined research Johnny L Green PhD Senior Pastor Bethel Ministries Inc Before the Rapture is a timely message for Christians in these last days of the church age soon culminating in the rapture of the true believers The book intends to help its readers escape the soon coming wrath of God upon the earth by being adequately prepared for the soon coming rapture of the true believers The uniqueness of this book is in the fact that it clearly exposes the enemys deceptive strategies which if not mastered will cause many Christians to miss out on the day of the rapture **Education in a Federal UK** John Furlong, Ingrid Lunt, 2019-10-23 Britain s two recent referenda on Brexit 2016 and on Scottish independence 2014 have raised in the public mind fundamental questions about the future of the UK It seems that for the first time the public the media and the political elite have woken up to the fact that in different parts of the UK there are different histories different aspirations and different imagined futures in relation to a whole range of vitally important political issues But what the public debate often fails to recognise is that in many areas of public life perhaps especially education the UK is already a federal state and in key respects has been so for many years The aim of this volume is therefore to take stock to try and capture what the current state of educational policy and practice is across the whole of the UK This has been achieved by commissioning two different papers from each of the four countries Wales Scotland Northern Ireland and England The first is an overview exploring the distinctive history principles and current policies of each country The second paper has been specifically chosen as a case study of a key policy that highlights the distinctiveness of each country the Foundation Phase for Wales assessment policy in Scotland shared education initiatives in Northern Ireland and higher education policy in England Taken together these eight papers give an important insight into the complexities of educational policy and practice across the whole of the UK today This volume was originally published as a special issue of Oxford Review of Education Globalizing Citizens Rajesh Tandon, John Gaventa, 2010-08-12 Globalization has given rise to new meanings of citizenship Just as they are tied together by global production trade and finance citizens in every nation are linked by the institutions of global governance bringing new dynamics of inclusion and exclusion For some globalization provides a sense of solidarity that inspires them to join transnational movements to claim rights from global authorities for others globalization has meant greater exposure to the power of global corporations bureaucracies and scientific experts thus adding new layers of exclusion to already fragile meanings of citizenship Globalizing Citizens presents expert analysis from cities and villages in India South Africa Nigeria the Philippines Kenya the Gambia and Brazil to explore how forms of global authority shape and build new meanings and practices of citizenship across local national and global arenas

Teacher Involvement in High-Stakes Language Testing Daniel Xerri, Patricia Vella Briffa, 2018-04-27 This book advocates that teachers should play an active role in high stakes language testing and that more weight should be given to teacher judgement. This is likely to increase the formative potential of high stakes tests and provide teachers with a sense of ownership. The implication is that the knowledge and skills they develop by being involved in these tests will feed into their own classroom practices. The book also considers the arguments against teacher involvement e.g. the contention that teacher involvement might entrench the practice of teaching to the test or that teachers should not be actively involved in high stakes language testing because their judgement is insufficiently reliable. Using contributions from a wide range of international educational contexts, the book proposes that a lack of reliability in teacher judgement is best addressed by means of training and not by barring educators from participating in high stakes language testing. It also argues that their involvement in testing helps teachers to bolster confidence in their own judgement and develop their assessment literacy. Moreover, teacher involvement empowers them to play a role in reforming high stakes language testing so that it is more equitable and more likely to enhance classroom practices. High stakes language tests that adopt such an inclusive approach facilitate more effective learning on the part of teachers which ultimately benefits all their students. [A Companion to Literary Evaluation](#)

Richard Bradford, Madelena Gonzalez, Kevin De Ornellas, 2024-03-21 The first critical survey of its kind devoted solely to literary evaluation. *Companion to Literary Evaluation* bridges the gap between the non-academic literary world where evaluation is deeply ingrained and the world of academia where evaluation is rarely considered. Encouraging readers to formulate and articulate arguments that balance instinctive judgment and reasoned assessment, this unique volume addresses key issues regarding literary values from the perspective of analytical aesthetics and the philosophy of literature. Bringing together a diverse panel of contributors, the *Companion* explores competing theories of literary evaluation, the reasons for evaluating theater and lyric poetry in performance, the question of value in literary theory, debates over Modernism's negative impact on literature, the possibility of evaluating aesthetic beauty through scientific and formalist methods, the nature and status of literary evaluation as a branch of criticism, aesthetics in applied and community theater, evaluation outside academia, the perils of extreme relativism and subjectivism in literary evaluation, evaluation in schools and much more. Contributors question and reassess the reputations of authors across the canon from Shakespeare and James Shirley to T.S. Eliot, Kathleen Raine, Virginia Woolf, Joyce and Beckett amongst others. The *Companion* illustrates how seemingly divergent perspectives on the artistic qualities and value of literature can sometimes overlap. Covers the standard range of literary genres while including others such as unfinished novels, freelance journalism, and lyric poetry in performance. Offers methodologies that demonstrate why literature can be treated as something different from other forms of language and therefore assessed as art. Explores the importance of maintaining clarity and specificity in the evaluation of literary works. *Companion to Literary Evaluation* is a must-read for undergraduates, research students, lecturers, and

academics in search of fresh perspectives on standard literary critical issues Educational Response, Inclusion and Empowerment for SDGs in Emerging Economies Mustafa Öztürk, 2022-08-22 This volume analyzes cases from emerging economies in relation to the global endeavor to promote the vision of sustainable development in all forms of education It aims to discuss the significance of hearing local voices and understanding local discourse regarding strategies for action for change and the role of educational systems as a means to communicate promote and educate for the Sustainable Development Goals SDGs In this book emerging economies are defined as newly industrialized countries that have not yet reached developed status but have in a macro economic sense outpaced their developing counterparts In this context the book highlights how education in emerging economies could extend conventional economic methods to sustainability issues or depart from money based calculations and business dominated values to promotion of real life considerations and ethical environmental and humanistic values With the help of this volume readers will have a chance to look at educational response inclusion and empowerment for SDGs in countries with emerging economies and to grasp the synthesis of Education for Sustainable Development Global Citizenship Education ESD GCE within the overall national educational systems This volume focuses on early childhood through upper secondary education China's Electricity Sector Leo Lester, Mike Thomas, 2018-03-19 This book provides a concise introduction to China's electricity sector suitable for university students and business analysts It is business focused combining an introduction from an established regional electricity consultancy with five academic chapters covering governance market stakeholders and reform wind and solar power environmental regulation and developments in financing It is written in an accessible but rigorous style for people with limited knowledge of the topic with minimal jargon but full referencing throughout the academic chapters Each academic chapter starts with a summary and three key points to guide the reader's understanding
