**ANS.**        An advantage of being able to implement individual modules is that you can choose best-of-breed software. Also, a partial implementation can be done more quickly and the benefits received earlier. The remainder of the implementation can proceed as needed and as resources permit.

A disadvantage might be that you may not experience the benefits of full integration and may need to create links between modules from different vendors.

**DQ 2-2**      *The Nile Company is considering taking customers' orders on its Web site.*

- a. What information would Nile collect from the customer during this process?*
