How to Change the WordPress Site Title and Tagline

The site title and tagline are two key things within your WordPress website. Basically, the site title will be considered as your website name whereas the tagline is usually a brief sentence about the website.

These two serve as an introduction to your website content or else point out what your website is all about in quite a brief way. Usually, these are located within the top left position within your website but the position may vary depending on the theme you are using. Below is a sample:
