History Memo Grd11 November 2013:

Operation Thunderbolt Saul David, 2015-12-01 The definitive account of one of the greatest Special Forces missions ever the Raid of Entebbe by acclaimed military historian Saul David On June 27 1976 an Air France flight from Tel Aviv to Paris was hijacked by a group of Arab and German terrorists who demanded the release of 53 terrorists The plane was forced to divert to Entebbe in Uganda ruled by the murderous despot Idi Amin who had no interest in intervening Days later Israeli commandos disguised as Ugandan soldiers assaulted the airport terminal killed all the terrorists and rescued all the hostages but three who were killed in the crossfire The assault force suffered just one fatality its commander Yoni Netanyahu brother of Israel's Prime Minister Three of the country's greatest leaders Ehud Barak Shimon Peres and Yitzhak Rabin planned and pulled off one of the most astonishing military operations in history

Crimea, Global Rivalry, and the Vengeance of History Hall Gardner, 2016-04-30 Gardner examines the causes and consequences of Russia's annexation of Crimea By analyzing alliance formations and the consequences of other annexations in world history the book urges an alternative US NATO European Japanese strategy toward both Russia and China in the effort to prevent a renewed arms race if not global war

The Red Cross Movement Neville Wylie, Melanie Oppenheimer, James Crossland, 2020-03-26 This book offers new and exciting scholarship on the history of the Red Cross Movement by leading historians in the field It re imagines and re evaluates the Red Cross as an institutional network and a key actor in the humanitarian space through two centuries of war and peace

Politics and Climate Change: A History Andy May, 2022-09-04 These are stories of the political corruption of science Politicians work to forge a consensus they use persuasion intimidation and avoid or suppress debate Debating an issue leads to education it shows the question is more complex than it appears it makes the public consider all sides Education leads to caution not action The politician wants a decision he wants action so no debate Once the consensus is formed the public votes laws are passed regulations issued the minority concedes and conflict is avoided Science is not a belief It exists to challenge the consensus view It is how one person can show the overwhelming majority is mistaken Scientists do not vote they debate They gather facts make observations and analyze the data and try to show the consensus opinion is wrong Politicians and scientists don't mix They are like fire and water opposites But what about when no one trusts the politician and he must have a scientist for back up What happens when the government becomes the sole source of research money We address the attempt by politicians to control scientific research and research outcomes They do this by selectively funding projects that look for potential disasters ideally global disasters People love disaster stories journalists love disaster stories scientists love to be quoted in newspapers and on television If you frighten people enough they will give up their rights for security increasing government power So it is not surprising that as government has taken over funding scientific research scientists have migrated from research that helps people to researching possible catastrophes no matter how remote the possibility Science has devolved from improving human lives to developing plots for disaster movies

Americans in a World at War Brooke L. Blower, 2023-08-01 Americans in a World at War tells the panoramic and often surprising story of seven worldly Americans their personal histories their politics and the paths that led them to board a Pan American Airways seaplane bound for Lisbon in February 1943 When the Yankee Clipper crashed in the Tagus River it took numerous lives but left a paper trail that leads to a richer deeper understanding of Americans diverse global commitments during the first half of the twentieth century as well as how the Second World War would transform those engagements

Live from the Underground Katherine Rye Jewell, 2023-11-07 Bands like R E M U2 Public Enemy and Nirvana found success as darlings of college radio but the extraordinary influence of these stations and their DJs on musical culture since the 1970s was anything but inevitable As media deregulation and political conflict over obscenity and censorship transformed the business and politics of culture students and community DJs turned to college radio to defy the mainstream and they ended up disrupting popular music and commercial radio in the process In this first history of US college radio Katherine Rye Jewell reveals that these eclectic stations in major cities and college towns across the United States owed their collective cultural power to the politics of higher education as much as they did to upstart bohemian music scenes coast to coast Jewell uncovers how battles to control college radio were about more than music they were an influential if unexpected front in the nation s culture wars These battles created unintended consequences and overlooked contributions to popular culture that students DJs and listeners never anticipated More than an ode to beloved stations this book will resonate with both music fans and observers of the politics of culture

Open to Think Dan Pontefract, 2018-09-11 While it may not occur to us on a daily basis there is a widespread cultural tendency toward quick decisions and quick action This pattern has resulted in many of our society s greatest successes but even more of its failures Though the root cause is by no means malicious we have begun to reward speed over quality and the negative effects suffered in both our personal and professional lives are potentially catastrophic Best selling author and Chief Envisioner Dan Pontefract offers the solution to this predicament with what he coins Open Thinking a cyclical process in which creativity is encouraged critiquing leads to better decisions and thoughtful action delivers positive sustainable results He proposes a return to balance between the three components of productive thought dreaming deciding and doing Based on organizational and societal data academic research historical studies and a wide range of interviews Open to Think is an appeal for a world of better thinking Pontefract introduces tangible actionable strategies to improve the way we think as organizations and individuals

The English Higher Grade Schools Meriel Vlaeminck, 2013-09-05 The English higher grade schools formed a key part of an expanding 19th century education system but they threatened the vested interests of a powerful Establishment bent on reaffirming the status quo The author analyzes the 1902 Education Act as a retrogressive move by which much was lost

The Future of the Soviet Past Anton Weiss-Wendt, Nanci Adler, 2021-10-05 In post Soviet Russia there is a persistent trend to repress control or even co opt national history By reshaping memory to suit a politically convenient narrative Russia has fashioned a good future out

of a bad past While Putin s regime has acquired nearly complete control over interpretations of the past The Future of the Soviet Past reveals that Russia s inability to fully rewrite its Soviet history plays an essential part in its current political agenda Diverse contributors consider the many ways in which public narrative shapes Russian culture from cinema television and music to museums legislature and education as well as how patriotism reflected in these forms of culture implies a casual acceptance of the valorization of Stalin and his role in World War II The Future of the Soviet Past provides effective and nuanced examples of how Russia has reimagined its Soviet history as well as how that past still influences Russia s policymaking

Free Speech and Unfree News Sam Lebovic,2016-03-14 Does America have a free press Many who say yes appeal to First Amendment protections against censorship Sam Lebovic shows that free speech on its own is not sufficient to produce a free press and helps us understand the crises that beset the press amid media consolidation a secretive national security state and the daily newspaper s decline
