The Times Index, January -December 2012 ,2012 [Facets](#)

of Power Richard Saunders, Tinashe Nyamunda, 2016-04-18 The diamond fields of Chiadzwa among the world's largest sources of rough diamonds have been at the centre of struggles for power in Zimbabwe since their discovery in 2006. Against the backdrop of a turbulent political economy, control of Chiadzwa's diamonds was hotly contested. By 2007 a new case of blood diamonds had emerged in which the country's security forces engaged with informal miners and black market dealers in the exploitation of rough diamonds violently disrupting local communities and looting a key national resource. The formalisation of diamond mining in 2010 introduced new forms of large scale theft, displacement and rights abuses. **Facets of Power** is the first comprehensive account of the emergence, meaning and profound impact of Chiadzwa's diamonds. Drawing on new fieldwork and published sources, the contributors present a graphic and accessibly written narrative of corruption and greed as well as resistance by those who have suffered at the hands of the minerals' secretive and violent beneficiaries. If the lessons of resistance have been mostly disheartening ones, they also point towards more effective strategies for managing public resources and mounting democratic challenges to elites whose power is sustained by preying on them. **National Park Science** Jane Carruthers, 2017-08-17 South Africa is renowned for its wildlife and environmental conservation in iconic national parks such as the Kruger, one of the world's first formal protected areas. However, this is the first book to thoroughly analyse and explain the interesting and changing scientific research that has been accomplished in South Africa's national parks during the twentieth century. Providing a fascinating and thorough historical narrative based on an extensive range of sources, this text details the evolution of traditional natural history pursuits to modern conservation science in South Africa, covering all research areas of conservation biology and all the national parks around the country. It reveals the interaction between the international context, government, learning institutions and the public that has shaped the present conservation arena. A complex story that will interest and inform not only those involved in conservation science of South Africa but worldwide. British foreign policy and the 'Arab Spring' Great Britain: Parliament: House of Commons: Foreign Affairs Committee, 2012-07-19 Eighteen months since the Arab Spring began, there has been extraordinary progress in Egypt, Tunisia and Libya. Yet many challenges still lie ahead, not least the need to support and reform the economies of these Arab Spring states. In 2011 the G8 Deauville Partnership identified 38 billion of funding available to support reform. The UK must use its leadership in the EU and G8 to ensure that we deliver on our promises. The Government needs to learn lessons from its experience in anticipating and handling the Arab Spring. Questions arose about the FCO's staffing levels, linguistic expertise and information gathering in the Middle East and North Africa region, although diplomats understood well the long term problems in the region. The report welcomes the Government's recent moves to establish contacts with Islamist parties in the region and calls for deeper engagement to demonstrate at an early stage the UK's support and assistance for democratically elected leaders who respect human rights and democratic reforms. The BBC's Arabic Service further highlighted the importance of the BBC World Service in providing an independent news service and enhancing the UK's standing in the

region The Committee welcomes the Government's decision to reverse planned cuts to the Arabic Service last year expresses concerns that cuts made elsewhere in the World Service will prove detrimental to the national interest and urges that there be a sustained investment in the World Service
