How to Build Motorcycle-engined Racing Cars Tony Pashley, 2017-08-15 If you are aspiring to build a racing car *How to Build Motorcycle engined Racing Cars* could be the book that you've been waiting for Tony Pashley revisits the path that he took in the Pashley Project articles in *Race Tech* magazine during the design and construction of two successful hillclimb cars but this time in great detail with a view to enabling the reader to carry out a similar exercise for themselves Although hillclimb and sprint cars are the focal topic a lot of the book is applicable to race cars in general The cars under discussion in the book are powered by motorcycle engines which are meeting with great success in the smaller racing car classes The total process of building a car is described beginning with the selection and procurement of the engine Chassis and suspension design is covered in a simplistic but adequate manner as the author's aim is to minimize the inclusion of involved calculations Two recipes for chassis construction are illustrated in detail along with guidance on the processes of construction and a description of the required equipment Following on from this the fabrication of the suspension is explained Further chapters are dedicated to the remaining aspects of the vehicle covering transmission brakes fuel and coolant systems and electrics The book is heavily illustrated with 200 photographs and extensive explanatory diagrams and tables It is a vital addition to any would be kit car builder's library

Motorcycle GP Racing in the 1960s Chris Pereira, 2014 This book examines the classic period of Grand Prix racing from 1960 to 1969 and the men and machines involved Covering the emergence of the Japanese factories and the struggle for supremacy between 2 and 4 stroke technologies it is a fascinating exploration of the last decade of traditional Grand Prix racing before significant events changed the nature of the sport forever

Race & Trackday Driving Techniques David Hornsey, 2011 A complete reference and learning tool for people taking to the circuit in their cars either for the first time or as a seasoned campaigner This book is designed to take the reader on a journey of discovery as you unlock the secrets of speed from the basic principles through to advanced techniques and individual circuit tricks Designed with learning in mind the book shows not only what to do to go faster but also why these techniques work

Runways & Racers Terry O'Neil, 2011 *Runways and Racers* focuses on sports car races held at military installations throughout America in the early 1950s It was a marriage of convenience for the Sports Car Club of America and the Strategic Air Command with both parties gaining advantages from the arrangement The thorn in the side turned out to be a Congressman whose own aspirations exceeded his standing but who found himself in a position to be able to influence the outcome of events

Race Car Design Derek Seward, 2017-09-16 Based on the principles of engineering science physics and mathematics but assuming only an elementary understanding of these this textbook masterfully explains the theory and practice of the subject Bringing together key topics including the chassis frame suspension steering tyres brakes transmission lubrication and fuel systems this is the first text to cover all the essential elements of race car design in one student friendly textbook It avoids the pitfalls of being either too theoretical and mathematical or else resorting to

approximations without explanation of the underlying theory Where relevant emphasis is placed on the important role that computer tools play in the modern design process This book is intended for motorsport engineering students and is the best possible resource for those involved in Formula Student FSAE It is also a valuable guide for practising car designers and constructors and enthusiasts

Northeast American Sports Car Races 1950-1959 Terry O'Neil,2010 This book focuses on the different aspects that contributed to the development of Northeast American sports car racing during the 1950s The evolution from amateur drivers racing on public roads in 1950 to both professional and amateur drivers racing at private purpose built tracks in 1959 demanded huge leaps of faith trust and understanding The transition was neither easy nor uneventful for drivers clubs or track owners and the tragedy politics and in

Japanese Custom Motorcycles Uli Cloesen,2013 Many books have been published about Japanese motorcycles but none has focused exclusively on the Japanese motorcycle based chopper bobber trike and quad custom bike scene until now Featuring stunning photography this is a great book for Japanese bike fans and fans of the custom bike scene in general
