The Road to 9/11  
Peter Dale Scott, 2007-09-04

Scott's brilliantly perceptive account of the underpinnings of American governmental authority should be made required reading. The book vividly depicts the political forces that have pushed this country toward an abyss threatening constitutional democracy at home and world peace abroad. Its central message can be understood as an urgent wake-up call to everyone concerned with the future of America.

Richard Falk, author of *The Great Terror War*

Peter Dale Scott is one of that tiny and select company of the most brilliantly creative and provocative political/historical writers of the last half century. *The Road to 9/11* further secures his distinction as truth teller and prophet. He shows us here with painful yet hopeful clarity the central issue of our time: America's coming to terms with its behavior in the modern world. As in his past work, Scott's gift is not only recognition and wisdom but also redemption and rescue; we simply cannot do without Roger Morris, former NSC staffer.

*The Road to 9/11* is vintage Peter Dale Scott. Scott does not undertake conventional political analysis; instead, he engages in a kind of poetics, crafting the dark poetry of the deep state, of parapolitics, and of shadow government. As with his earlier work *Deep Politics and the Death of JFK*, Scott has no theory of responsibility and does not name the guilty. Rather, he maps out an alien terrain, surveying the topography of a political shadow land in which covert political deviancy emerges as the norm.

After reading Scott, we can no longer continue with our consensus-driven belief that our so-called liberal order renders impossible the triumph of the politically irrational.

Eric Wilson, Senior Lecturer of Public International Law, Monash University and co-editor of *Government of the Shadows*

Peter Dale Scott exposes a shadow world of oil, terrorism, drug trade, and arms deals, of covert financing and parallel security structures from the Cold War to today. He shows how such parallel forces of the United States have been able to dominate the agenda of the George W. Bush Administration and that statements and actions made by Vice President Cheney and Defense Secretary Rumsfeld before, during, and after September 11, 2001, present evidence for an American deep state and for the so-called Continuity of Government in parallel to the regular public state ruled by law.

Scott's brilliant work not only reveals the overwhelming importance of these parallel forces but also presents elements of a strategy for restraining their influence to win back the public state, the American democracy.

Ola Tunander, International Peace Research Institute, Oslo

A powerful study of the historic origins of the terrorist strikes of September 11, this book offers an indispensable guide to the gluttonous cast of

characters who since Watergate and the fall of Nixon fashioned an ever more reckless American empire By exposing the corrupt U S deep state transfer of public authority to America s wealthy and to the nation s unaccountable secret intelligence agencies Peter Dale Scott s *The Road to 9 11* illuminates the path toward a more democratic and inclusive republic David MacGregor King s University College at the University of Western Ontario *The Road to 9 11* provides an illuminating and disturbing history of the American government since World War II Scott s account suggests that the 9 11 attacks were a culmination of long term trends that threaten the very existence of American democracy and also that there has been a massive cover up of 9 11 itself This book which combines extensive research perceptive analysis and a fascinating narrative will surely be considered Scott s magnum opus David Ray Griffin author of *Debunking 9 11 Debunking The America we knew and loved Can it be saved* That question opens this book and getting to the answer called for the honed intellect of a scholar and the sensitivity of a poet Peter Dale Scott has both in spades and here gives us much much more than a book about 9 11 In a time of fear he speaks for sanity and freedom Anthony Summers author of *The Arrogance of Power* [The 9/11 Commission Report](#) United States. Congress. House. Committee on Financial Services,2004 **The 9/11 Commission Report** National Commission on Terrorist Attacks,2011-05-16 Nearly three thousand people died in the terrorist attacks of September 11 2001 In Lower Manhattan on a field in Pennsylvania and along the banks of the Potomoc the United States suffered the single largest loss of life from an enemy attack on its soil In November 2002 the United States Congress and President George W Bush established by law the National Commission on Terrorist Attacks Upon the United States also known as the 9 11 Commission This independent bipartisan panel was directed to examine the facts and circumstances surrounding the September 11 attacks identify lessons learned and provide recommendations to safeguard against future acts of terrorism This volume is the authorized edition of the Commission s final report **9/11 Commission Report** United States.
