Outclassed Joan C. Williams, 2025-05-20 An eye opening urgent call to mend the broken relationship between college and non college grads of all races that is driving politics to the far right in the US Is there a single change that could simultaneously protect democracy spur progress on climate change enact sane gun policies and improve our response to the next pandemic Yes changing the class dynamics driving American politics The far right manipulates class anger to undercut progressive goals and liberals often inadvertently play into their hands In *Outclassed* Joan C Williams explains how to reverse that process by bridging the diploma divide while maintaining core progressive values She offers college educated Americans insights into how their values reflect their lives and their lives reflect their privilege With illuminating stories from the Portuguese admiral who led that country's COVID response to the lawyer who led the ACLU's gay marriage response and more Williams demonstrates how working class values reflect working class lives Then she explains how the far right connects culturally with the working class deftly manipulating racism and masculine anxieties to deflect attention from the ways far right policies produce the economic conditions disadvantaging the working class Whether you are a concerned citizen committed to saving democracy or a politician or social justice warrior in need of messaging advice *Outclassed* offers concrete guidance on how liberals can forge a multi racial cross class coalition capable of delivering on progressive goals

The Hidden War in Argentina Panagiotis Dimitrakis, 2018-12-13 Though officially neutral until March 1945, Buenos Aires played a key role during World War II as a base for the South American intelligence operations of the major powers. *The Hidden War in Argentina* reveals the stories of the spymasters, British, Americans and Germans who plotted against each other throughout the Second World War in Argentina. In Buenos Aires, Johannes Siegfried Becker, codename Sargo, was the man responsible for organizing most of the Nazi intelligence gathering in Latin America and the leader of Operation Bolivar, which sought to bring South America into the war on the side of the Axis powers. After the attack on Pearl Harbor, the US State Department pressured every South American country to join it in declaring war on Germany, and J. Edgar Hoover authorized huge investments in South American intelligence operations. Argentina continued to refuse to join the conflict, triggering a US embargo that squeezed the country's economy to breaking point. Buenos Aires continued to be a hub for espionage even as the war in Europe was ending; hundreds of high-ranking Nazi exiles sought refuge there. This book is based on newly declassified files and details of the operations of MI6, the Abwehr, the Sicherheitsdienst (SD) and the FBI, as well as the OSS and the SOE. Most significantly, *The Hidden War in Argentina* reveals for the first time the coups of Britain's MI6 in South America.

NASA Technical Memorandum, 1994 *Strengthening the Disaster Resilience of the Academic Biomedical Research Community* National Academies of Sciences, Engineering, and Medicine, Division on Earth and Life Studies, Health and Medicine Division, Institute for Laboratory Animal Research, Board on Earth Sciences and Resources, Board on Health Sciences Policy, Committee on Strengthening the Disaster Resilience of Academic Research Communities, 2017-10-20 The academic biomedical research community is a hub of employment, economic productivity and scientific progress. Academic research institutions are drivers of economic development in their local and state economies and, by extension, the national economy. Beyond the economic input that the academic biomedical research community both receives and provides, it generates knowledge that in turn affects society in myriad ways. The United States has experienced and continues to face the threat of disasters, and like all entities, the academic biomedical research community can be affected. Recent disasters, from hurricanes to cyber attacks, and their consequences have shown that the investments of the federal government and of the many other entities that sponsor academic research are not uniformly secure. First and foremost, events that damage biomedical laboratories and the institutions that house them can

have impacts on the safety and well being of humans and research animals Furthermore disasters can affect career trajectories scientific progress and financial stability at the individual and institutional levels Strengthening the Disaster Resilience of the Academic Biomedical Research Community offers recommendations and guidance to enhance the disaster resilience of the academic biomedical research community with a special focus on the potential actions researchers academic research institutions and research sponsors can take to mitigate the impact of future disasters Bioentrepreneurship and Transferring Technology Into Product Development Agarwal, Swati,Kumari, Sonu,Khan, Suphiya,2021-06-25 In terms of becoming a successful bioentrepreneur there is still much more to learn There are many ways to learn the essential fundamentals of entrepreneurship including through the mistakes of previous businesses and models Increased knowledge and a better understanding of what works can be derived from these previous failures and mistakes Additionally learning from other bioentrepreneurs can help businesses run successfully By looking deeper into business models product development the fundamental concepts of bioentrepreneurship and the essential characteristics of bioentrepreneurs one can become better equipped to understand the role of biological sciences in entrepreneurship specifically the role of product development Bioentrepreneurship and Transferring Technology Into Product Development provides a comprehensive understanding of the role of biological sciences specifically in transforming technology into commercial product This book compiles the theoretical and practical aspects of bioentrepreneurship and discusses the various factors including creating business plans acquiring funding and successful business models The chapters also cover areas such as small scale product development intellectual property rights funding schemes for start ups and new prospective biotechnology product development This book is essential for bioentrepreneurs entrepreneurs product developers scientists practitioners researchers academicians and students interested in product development from a biological science perspective Data Management Margaret E. Henderson,2016-10-25 Libraries organize information and data is information so it is natural that librarians should help people who need to find organize use or store data Organizations need evidence for decision making data provides that evidence Inventors and creators build upon data collected by others All around us people need data Librarians can help increase the relevance of their library to the research and education mission of their institution by learning more about data and how to manage it Data Management will guide readers through Understanding data management basics and best practices Using the reference interview to help with data management Writing data management plans for grants Starting and growing a data management service Finding collaborators inside and outside the library Collecting and using data in different disciplines
