Duration: 45 minutes

INSTRUCTIONS AND INFORMATION**Read the following instructions carefully before answering the questions.**

1. This is a formal SBA task and must be done under supervised conditions in the classroom.
2. Each learner completes this task on his/her own (under test conditions).
3. Present the answers according to the instructions of each question.
4. Draw all diagrams in pencil and labels in blue ink.
5. The diagrams in the question paper may NOT be drawn to scale.

BACKGROUND INFORMATION

The biosphere is the thin layer of land, air and water around the earth's surface that supports life. The abiotic, or non-living, portion of each ecosystem in the biosphere includes the flow of energy, nutrients, water, and gases and the concentrations of organic and inorganic substances in the environment. The biotic, or living, portion includes organisms based on their methods of acquiring energy: the primary producers, largely green plants; the consumers, which include all the animals; and the decomposers, which include the microorganisms that break down the remains of plants and animals into simpler components for recycling in the biosphere.

Ecological pyramids are a graphical representation in the shape of a pyramid to show the feeding relationship of groups of organisms, and the flow of energy or biomass through the different trophic levels in a given ecosystem.

QUESTION 1: Abiotic factors

Handbook of Teaching Public Policy Emily

St.Denny,Philippe Zittoun,2024-01-18 Pragmatic progressive and global in its approach this Handbook centres around the key question How can we teach public policy Presenting a wide variety of theoretical and methodological perspectives it expertly examines current approaches to teaching public policy and critically reflects on potential future developments in the field **Handbook of Research on Operational Quality Assurance in Higher Education for Life-Long Learning**

Nuninger, Walter,Châtelet, Jean-Marie,2019-12-06 Previously key levers of higher education have seemed to be the learning organization work integrated learning for life long learning and learner centered pedagogy However funding evolution and the integration of digital tools are changing professional styles and learning behaviors Nonetheless the sustainability of higher education requires quality agreement based on ethical robust and replicable pedagogical approaches The Handbook of Research on Operational Quality Assurance in Higher Education for Life Long Learning is a comprehensive scholarly book that focuses on the evolution of the education framework and job market as well as necessary changes needed in organizations to reply to life long learning and competency based training initiatives Highlighting topics such as digital environment e learning and learning analytics this book is essential for higher education faculty managers deans professionals administrators educators academicians researchers and policymakers **Poison Powder** Gregory S.

Wilson,2023-04-01 In 1975 workers at Life Science Products a small makeshift pesticide factory in Hopewell Virginia became ill after exposure to Kepone the brand name for the pesticide chlordecone They made the poison under contract for a much larger Hopewell company Allied Chemical Life Science workers had been breathing in the dust for more than a year Ingestion of the chemical made their bodies seize and shake News of ill workers eventually led to the discovery of widespread environmental contamination of the nearby James River and the landscape of the small working class city Not only had Life Science dumped the chemical but so had Allied when the company manufactured it in the 1960s and early 1970s The resulting toxic impact was not only on the city of Hopewell but also on the faraway fields where Kepone was used as an insecticide Aspects of this environmental tragedy are all too common corporate avarice ignorance and regulatory failure combined with race and geography to determine toxicity and shape the response But the Kepone story also contains some surprising medical legal and political moments amid the disaster With Poison Powder Gregory S Wilson explores the conditions that put the Kepone factory and the workers there in the first place and the effects of the poison on the people and natural world long after 1975 Although the manufacture and use of Kepone is now banned by the Environmental Protection Agency organochlorines have long half lives and these toxic compounds and their residues still remain in the environment

Africa's Lions Haroon Bhorat,Finn Tarp,2016-11-08 Examining the economic forces that will shape Africa s future Africa s Lions examines the economic growth experiences of six fast growing and or economically dominant African countries Expert African researchers offer unique perspectives into the challenges and issues in Ethiopia Ghana Kenya Mozambique Nigeria and South Africa Despite a growing body of research on African economies very little has focused on the relationship

between economic growth and employment outcomes at the detailed country level A lack of empirical data has deprived policymakers of a robust evidence base on which to make informed decisions By harnessing country level household firm and national accounts data together with existing analytical country research the authors have attempted to bridge this gap The growth of the global working age population to 2030 will be driven primarily by Africa which means that the relationship between growth and employment should be understood within the context of each country s projected demographic challenge and the associated implications for employment growth A better understanding of the structure of each country s workforce and the resulting implications for human capital development the vulnerably employed and the working poor will be critical to informing the development policy agenda As a group the six countries profiled in Africa s Lions will largely shape the continent s future Each country chapter focuses on the complex interactions between economic growth and employment outcomes within the individual Africa s Lions context Learning in Later Life Trish

Hafford-Letchfield,2016-06-17 Within the UK and Europe government legislation and policies concerned with demography have asserted a paradigmatic shift towards the increased engagement of older people with public services The philosophy of user involvement and co production within these contexts has become integral to finding ways in which to improve the wellbeing of older people and their experiences of ageing well Whilst this area has been steadily emerging within the educational field in relation to the lifelong learning of older people there has been a relative under theorization and a lack of empirical research however into the lifelong learning needs opportunities and experiences of those older people using social care who are typically marginalized from these debates and developments This book address this gap by paying specific attention to examining what opportunities might be present within care services and public services in general for older people using social care to capitalize on the skills and knowledge they might need to achieve more person centred support Through developing a debate and argument for the convergence of the lifelong learning agenda with social policy and social care its core argument focusses on the challenge of sustainability of the care and support of older people The author explores how social care could engage more meaningfully with concepts such as social capital and the challenges associated with achieving a genuine co productive approach towards the quality of experience of older people using social care This book will be an essential read for professionals working with older people in health and social care as well as those engaged with gerontology and ageing studies in education and practice *2016GUIDELINES FOR INVESTIGATING GEOLOGIC*

HAZARDS AND PREPARING ENGINEERING-GEOLOGY REPORTS, WITH A SUGGESTED APPROACH TO

GEOLOGIC-HAZARD ORDINANCES IN UTAH Steve D. Bowman,William R. Lund,2016-09-21 The purpose of these guidelines for investigating geologic hazards and preparing engineering geology reports is to provide recommendations for appropriate minimum investigative techniques standards and report content to ensure adequate geologic site characterization and geologic hazard investigations to protect public safety and facilitate risk reduction Such investigations provide important

information on site geologic conditions that may affect or be affected by development as well as the type and severity of geologic hazards at a site and recommend solutions to mitigate the effects and the cost of the hazards both at the time of construction and over the life of the development The accompanying suggested approach to geologic hazard ordinances and school site investigation guidelines are intended as an aid for land use planning and regulation by local Utah jurisdictions and school districts respectively Geologic hazards that are not accounted for in project planning and design often result in additional unforeseen construction and or future maintenance costs and possible injury or death **Policing Digital Crime**

Robin Bryant, 2016-04-22 By its very nature digital crime may present a number of specific detection and investigative challenges The use of steganography to hide child abuse images for example can pose the kind of technical and legislative problems inconceivable just two decades ago The volatile nature of much digital evidence can also pose problems particularly in terms of the actions of the first officer on the scene There are also concerns over the depth of understanding that generic police investigators may have concerning the possible value or even existence of digitally based evidence Furthermore although it is perhaps a cliché to claim that digital crime and cybercrime in particular respects no national boundaries it is certainly the case that a significant proportion of investigations are likely to involve multinational cooperation with all the complexities that follow from this This groundbreaking volume offers a theoretical perspective on the policing of digital crime in the western world Using numerous case study examples to illustrate the theoretical material introduced this volume examines the organisational context for policing digital crime as well as crime prevention and detection This work is a must read for all academics police practitioners and investigators working in the field of digital crime
