Provides in-depth clinical reviews on functional neurologic disorders, offering actionable insights for clinical practice. Presents the latest information on this timely focused topic under the leadership of experienced editors in the field. Authors

synthesize and distill the latest research and practice guidelines to create clinically significant topic based reviews

Demonstrating Your Competence in Reproductive Health Julian Jenkins, 2005 APPRAISAL AND REVALIDATION SERIES The Appraisal and Revalidation Series helps doctors demonstrate their competence to the standard expected by the General Medical Council and to the standard expected if they are recognised as having special clinical interests It helps doctors gather evidence of their performance for appraisal and revalidation portfolios Revalidation will change the emphasis of regulation of doctors with an interest in reproductive medicine away from the qualifications of MRCOG or DRCOG towards regular assessment of a doctor's competence to practise and it will be incumbent upon the individual doctors whether in training or in substantive posts in primary or secondary care to reflect on their work and to demonstrate expertise within their special clinical interests This book will help to alleviate anxieties by removing the fear of the unknown through a series of concise chapters covering the crucial clinical areas in reproductive healthcare I commend the excellent practical advice on how to accumulate revalidation data by using practical examples based on cycles of evidence I envisage that many of us involved in the care of women will refer to this book time and time again It is an excellent contribution that will help doctors immensely in their preparation for the requirements of revalidation on all aspects of reproductive health Professor Steve Field in his foreword For more information on other titles in this series please click here [Advances in Medical Education](#) A.J.J.A. Scherpbier, Cees P.M. van der Vleuten, J.J. Rethans, A.F.W. van der Steeg, 2012-12-06 About 550 registrants from 51 different countries attended the Seventh Ottawa Conference on Medical Education and Assessment in Maastricht We received 525 abstracts for the conference divided in thematic poster sessions and platform presentations Organising the conference was an honour and we tried to meet the high standards of a friendly and relaxed atmosphere which has characterized previous Ottawa conferences During and after the conference about 250 papers were submitted for publication in the conference proceedings leaving us little time for a post conference depression Despite the large number of papers the editors have attempted to review and edit the papers as carefully as possible Occasionally however correspondence exceeded reasonable deadlines preventing careful editing of a small number of the papers Although we felt that our editorial task was not quite finished we nevertheless decided to include these papers We thank the many authors for their enthusiastic and prompt response to occasionally tedious editorial suggestions and requests We are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education The editors want to thank Jocelyn Flipppo Berger whose expertise with desk top publishing and perseverance was a great help

When somebody should go to the books stores, search instigation by shop, shelf by shelf, it is in fact problematic. This is why we offer the book compilations in this website. It will no question ease you to see guide **Mcq Communication Skills** as you such as.
