(1988)

**Sculptures**

Max Bill se conçoit avant tout comme un théoricien de la forme et envisage une approche mathématique de l'art. Il refuse de « prendre appui sur la nature sensible ou sur la transformation de celle-ci ». Il veut intégrer l'art à l'environnement. Ses peintures, ses sculptures sont des structures géométriques. Tout au long de son œuvre, il réalise « des continuités de variations sur un même thème » : bande de Möbius, carrés, sphères ou cylindres. En 1936, il pose l'art concret : « Concret est le contraire d'abstrait : l'art figuratif est abstrait de la réalité, tandis que l'art non-figuratif, qui est une pure création de l'esprit, devient concret par sa matérialisation, comme une chose existant dans la réalité ». Dès le début des années quarante, il aborde la recherche picturale sur le carré et les autres figures géométriques. À partir des années cinquante, il est attribuaire de nombreuses commandes publiques et réalise ponts, pavillons, mobilier ou structures urbaines et jardins suivant les lois de l'Art concret qu'il voit comme « l'expression pure de la mesure et de lois harmonieuses ».
