The mindsponge and BMF analytics for innovative thinking in social sciences and humanities
Quan-Hoang Vuong, Minh-Hoang Nguyen, Viet-Phuong La, 2022-10-10

Academia is a competitive environment Early Career Researchers ECRs are limited in experience and resources and especially need achievements to secure and expand their careers To help with these issues this book offers a new approach for conducting research using the combination of mindsponge innovative thinking and Bayesian analytics This is not just another analytics book

- 1 A new perspective on psychological processes Mindsponge is a novel approach for examining the human mind s information processing mechanism This conceptual framework is used to construct models in studies The framework is highly flexible and widely applicable for many different types of information processes The mindsponge approach can help researchers discover interesting ideas or even formulate their very own theories when investigating psychosocial phenomena This approach brings a fresh wind to the current landscape of social sciences and humanities
- SSH 2 Easy to follow analysis protocol The Bayesian Mindsponge Framework BMF analytics is useful in terms of computing and visualizing power but also easy to learn and apply Contrary to being intimidating the Bayesian analytics section of this book is presented in a reader friendly manner with a detailed yet clear step by step procedure Examples are from published BMF articles allowing readers to immediately practice the method and quickly create their own applications With educational purposes in mind the book is very suitable for ECRs who are looking to innovate their research methods
- 3 Advocating for low cost high quality research Doing science can be very costly Mindsponge innovative thinking and BMF analytics help produce impactful studies using openly available data on online repositories This is based on the authors previous works and experiences The book presents examples of employing the open

R package bayesvl on secondary data from different sources With less financial constraints researchers can have more freedom of thought to pursue their curiosity and creativity ECRs in low and middle income countries may find this aspect crucial in their careers 4 Support and collaboration The authors share their insights from experiences in the academic publishing system to help readers get through the processes of manuscript writing and peer reviewing more easily The authors are also ready to support other researchers with further inquiries and collaboration opportunities at the following website <https://mindsponge.info> This book is for a ECRs whose only abundant resources are their innovation capacity and strength of will b Researchers in SSH who want to explore a novel approach to thinking and study conducting c Low and middle income countries researchers looking for a cost effective research protocol and d Innovative thinkers who want to turn their interesting thoughts into good publications
