

Thank you for purchasing a Firex smoke alarm. It is an important component of your home security system. Please read this document thoroughly. The more familiar you are with the information it contains, the easier you will find it to install, operate, and maintain your smoke alarm properly, which ultimately means greater security and peace of mind for you and your family.

Smoke Alarm Advantages

Fire protection type alarms are generally more effective at detecting fire, warning you when a fire starts, and alerting you to evacuate your home. Alarms of most types include thermate (heat) or ionization (smoke) sensors. The photoelectric type alarm are generally more effective at detecting fires, including fires that smolder for hours before burning into flames. Some of these fires may include cigarette burning in ashtrays or bedding. However, both types of alarm are designed to provide adequate detection of both types of fires. If you desire the benefits of both systems, you should select smoke alarm that combine ionization and photoelectric and ionization sensing technology.
