He directs Hector to convince the Indian congregants that miracles are not the frequent events that they are reporting. When Hector reaches San Miguel he confronts a Protestant evangelical who is encouraging villagers to plant cash crops and use new pesticides and modern technology. Instead of battling for souls Hector must pit sustainable agriculture and appropriate technology against his rival. Behaviour is important Whether this be the behaviour of those who saw it coming or of those who constantly berated them The behaviour of those who rode the boom and switched at the tipping point to ride the bust or the behaviour of those who held on to their principled as the system collapsed around them It was human behaviour after all that led us to construct a bubble nobody suspected was dangerous yet nonetheless would burst with disastrous consequences Contrary to the views of many before the crash the cycle is inevitable you cannot eliminate boom and bust In a boom the bullish are promoted whilst the cautious are overlooked reinforcing the cycle This factor is generally ignored by the beautiful but flawed models of economic analysts Since we cannot abolish the cycle we must ensure that busts are not so dangerous in the future The policy solutions are there if we re brave enough from changing incentives and creating fiscal and financial regulators with clout and discretion through to changing corporate governance and shifting the power of executives *AP Computer Science*
