Geisler, 2005-01 **Systematic Theology** Norman L. Geisler, 2002-07-01 This stand alone in depth reference work is the culmination of the author s thirty plus years of study teaching and research The extensive Part One Introduction or preconditions sets this work apart from other systematic theologies available today Here Geisler examines the realities of the Christian faith including the existence of God inescapability of truth the nature of revelation and guidelines for interpretation Part Two Bible presents the origin of the Scripture its inspiration inerrancy and much more *Systematic Theology* Norman L. Geisler, 2005-09-01 A culmination of decades of study teaching and research This is truly a systematic theology for the twenty first century **Systematic Theology** Norman L. Geisler, 2003-08-01 The culmination of the author s decades of study teaching and research this second volume in the Systematic Theology series begins with an examination of the realities of the existence of God and His nature focusing on His attributes The next section Creation studies the biblical understanding of God s work past present and future and explains the scientific views associated with the origin of all things **Handmaid to Theology** Winfried Corduan, 2009-07-01 A most needed and creative beginning in theological prolegomena says Norman L Geisler of Handmaid to Theology In this work the long neglected use of philosophy in evangelical theology is overcome Philosophical Prolegomena does not in this case constitute an introduction to theology preliminary material of which one must dispose before delving into the actual content of divine revelation Instead it constitutes a handmaid to theology the philosophical categories that necessarily help to shape each doctrine In addition to demonstrating the inevitable reliance of theology on certain philosophical concepts the author pleads for a clear distinction between biblical theology and systematic theology within the evangelical tradition Particularly helpful says Geisler is the emphasis on the need to use biblically compatible concepts in order to construct a systematic theology After two introductory chapters What Is Prolegomena and Prolegomena The Starting Point the author devotes two chapters to the doctrine of man as many to the doctrine of revelation three to the doctrine of God and a final chapter to the doctrine of regeneration This book turns over new ground in theological prolegomena concludes Geisler Its pace setting insights could and I hope will

signal a return to a proper harmony between philosophy and biblical theology in the practice of systematic theology among evangelicals

A Popular Survey of the New Testament Norman L. Worlds Apart Norman L. Geisler, William D. Watkins, 2003-01-09 Those looking for a compendium of the major world views written from a Christian perspective need look no further Comprehensive and readable well organized and up to date Worlds Apart stands alone After introducing the meaning and function of a world view the authors explore the seven major world views of our day theism atheism pantheism deism finite godism and polytheism They delineate the varieties within each view analyze the beliefs of its major representatives and outline and evaluate its basic tenets The authors present the seven world views in such a way that one can compare and contrast these views It is our hope they write that readers will carefully consider all the options and then decide even if it means discarding the world view they now have In this revised edition the

authors have updated the text and bibliography rewritten several sections and included suggested readings for each world view Like the original edition published in 1984 this volume contains a glossary of terms and an index of subjects and names

DEFENDING EVANGELICALISM William C. Roach, 2020-11-15 This book is an important part of the historical record of Dr Norman L Geisler It displays Geisler s intellectual gifts and devotion to the Lordship of Christ in his defense of Christianity and classic evangelicalism This book written by one of Geisler s long time and trusted assistants will be of importance to those who want a first hand interpretation of Geisler and the significance of Geisler s method for present day evangelicalism It provides a clear assessment of the impact of Geisler s embrace of classical realism classical theism the doctrine of inerrancy in the context of twentieth century evangelical theology while providing a way forward to apply Geisler s method in the twenty first century

The Greatness of God Charles Frank Thompson, 2016-02-08 With each passing day our world seems to drift further and further away from the God of the Bible divine creation and Christian belief This societal shift toward postmodernism and secularism is not a new development however the expanding and intensifying revolt against the biblical God and Christianity traces its roots back to the modern philosophies of the Enlightenment and Romanticism which have given rise to many divergent views during the past three centuries and become even more extreme in recent postmodernism *The Greatness of God* How God Is the Foundation of All Reality Truth Love Goodness Beauty and Purpose stands as an intellectual counterweight to the prevailing winds of a secular postmodern world Author Charles Frank Thompson argues that the consequences of this rejection of God and divine creation have not been benign He traces the modern revolution in detail and describes its deleterious consequences including the loss of the ultimate basis for universal truth knowledge meaning and purpose In *The Greatness of God* Thompson explores a wide range of topics including Christian theology metaphysical philosophy and an analysis of modern thought and art He examines the rich history of Christian poetry prose and art and takes a look at recent scientific discoveries that help us understand Christian teachings about God s creation He concludes with an exploration of the millennium the eternal kingdom of God and the spiritual state of America and Europe today

Biblical Errancy Norman L. Geisler, 2004-08-04 Philosophy has given us insights into the reflections of thinkers on such subjects as God mankind the world and the possibility of knowing ultimate reality The processes of reasoning and the conclusions of logic are often intensely fascinating Dr Geisler reminds us however that the premises and the arguments of philosophy are often faulty leading to a wholly inadequate view of knowledge and revelation He reiterates Paul s warning to the Colossian Christians See to it that no one takes you captive through hollow and deceptive philosophy The contributors to this volume show how the basic presuppositions of many philosophers lead to a denial of a divine inerrant revelation The views of some modern theologians regarding revelation find their roots in such deceptive philosophy Chapter titles are Inductivism Materialism and Rationalism Bacon Hobbes and Spinoza Norman L Geisler Skepticism Hume Gary R Habermas Agnosticism Kant W David Beck Transcendentalism Hegel Winfried Corduan
