Coalition Government Penal Policy 2010-2015 David Skinns,2016-07-12 This book shows how the overall impact of the penal policy agenda of the Coalition Government 2010 2015 has not led to the intended rehabilitation revolution but austerity outsourcing and punishment designated here as punitive managerialism divThe policy of austerity has led to significant budget cuts in legal aid and court services which threaten justice It has also led to staffing reductions and overcrowding in the prison system which threaten order and have undermined more positive work with prisoners The outsourcing of prison and community based offender services is based on untried method with uncertain results The shift in orientation towards punishment is regrettable because it is essentially negative The book notes that this move to punitive managerialism is located in the broader trend towards neo liberalism It concludes by attempting to articulate the parameters of an affordable and emotionally satisfying yet humane and rational penal policy *Access to Justice* Ellie Palmer,Tom Cornford,Yseult Marique,Audrey Guinchard,2016-01-28 Building on a series of ESRC funded seminars this edited collection of expert papers by academics and practitioners is concerned with access to civil and administrative justice in constitutional democracies where for the past decade governments have reassessed their priorities for funding legal services embracing new technologies that reconfigure the delivery and very concept of legal services cutting legal aid budgets and introducing putative cost cutting measures for the administration of courts tribunals and established systems for the delivery of legal advice and assistance Without underplaying the future potential of technological innovation or the need for a fair and rational system for the prioritisation and funding of legal services the book questions whether the absolutist approach to the dictates of austerity and the promise of new technologies that have driven the Coalition Government s policy can be squared with obligations to protect the fundamental right of access to justice in the unwritten constitution of the United Kingdom **The Politics of Judicial Independence in the UK's Changing Constitution** Graham Gee,Robert Hazell,Kate Malleson,Patrick O'Brien,2015-03-12 Judicial independence is generally understood as requiring that judges must be insulated from political life The central claim of this work is that far from standing apart from the political realm judicial independence is a product of it It is defined and protected through interactions between judges and politicians In short judicial independence is a political achievement This is the main conclusion of a three year research project on the major changes introduced by the Constitutional Reform Act 2005 and the consequences for judicial independence and accountability The authors interviewed over 150 judges politicians civil servants and practitioners to understand the day to day processes of negotiation and interaction between politicians and judges They conclude that the greatest threat to judicial independence in future may lie not from politicians actively seeking to undermine the courts but rather from their increasing disengagement from the justice system and the judiciary **The Budget and Structure of the Ministry of Justice** Great Britain: Parliament: House of Commons: Justice Committee,2012-08-18 In the five years since the Ministry of Justice was created it has made

improvements to its structure and performance and is now a more integrated Department However the Ministry is still too much in thrall to the prison service better integrated offender management would enable the Ministry to make the financial savings demanded of it but also provide a more effective service to clients users and the wider public and in particular to achieve its key objective to reduce re offending The Ministry has been subject to past criticism for poor financial management missing the Treasury's deadline for the laying of accounts three years running woeful inefficiency in the administration of legal aid and too much focus on policy at the expense of delivery Following an in depth investigation into all aspects of the Department's work the Committee concluded that the Ministry has got a grip of the situation and is justifying the rationale for its creation However the MPs believe the Department could undergo further restructuring to create a single delivery body Additionally the current structure of the National Offender Management Service NOMS which continues to be driven by prison priorities produces difficulties in reducing re offending The Committee also makes a number of further recommendations to improve how the Department functions

Legal Services Commission Annual Report Great Britain. Legal Services Commission,2012 While good governance is a worthy goal by itself this book argues that it is not a prerequisite for economic growth or development Challenging the conventional good governance paradigm favored by the donor community this book exposes the methodological shortcomings of the commonly used governance indicators developed within the World Bank It argues that aggregate good governance indicators are less helpful for identifying governance failure

in specific areas needing policy interventions Bringing together contributions from leading political scientists political economists and development practitioners this is the first book that focuses on such good governance issues *New Pathways to Civil Justice in Europe* Xandra Kramer,Alexandre Biard,Jos Hoevenaars,Erlis Themeli,2021-09-17 This book focuses on four topical and interconnected innovative pathways to civil justice within the context of securing and improving access to justice the use of Artificial Intelligence and its interactions with judicial systems ADR and ODR tracks in privatising justice systems the effects of increased self representation on access to justice and court specialization and the establishment of commercial courts to counter the trend of vanishing court trials Top academics and experts from Europe the US and Canada address these topics in a critical and multidisciplinary manner combining legal socio legal and empirical insights The book is part of Building EU Civil Justice a five year research project funded by the European Research Council It will be of interest to scholars and policymakers as well as practitioners working in the areas of civil justice alternative dispute resolution court systems and legal tech The chapters Introduction The Future of Access to Justice Beyond Science Fiction and Constituting a Civil Legal System Called Just Law Money Power and Publicity are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com [Interpreting and Translation Services and the Applied Language Solutions Contract](#) Great Britain: Parliament: House of Commons: Justice Committee,2013-02-06 Evidence suggests that the MoJ did not have a sufficient understanding of the complexities of court interpreting work Significant concern was revealed that quality standards could be diminished by the imposition of a tiered system to enable a wider pool of interpreters and by the introduction of lower levels of pay However the Department pushed ahead with the contract and failed to properly anticipate or address the potential for problems with Applied Language Solutions ALS capacity to deliver on its promises ALS and more recently Capita has been unable to recruit qualified and experienced interpreters in sufficient numbers Professional interpreters have largely boycotted the new arrangements and Capita ALS clearly needed significantly more resources than it had at its disposal It also only paid lip service to the regulatory duties accepted under the Framework Agreement yet did not have the capacity to cope with complaints or to implement basic vetting procedures The MoJ has had to monitor Capita ALS very closely to secure the level of improvement necessary to make the Agreement workable and continues to do so The existing arrangements may not be financially sustainable as Capita is propping up the continuation of the Agreement which mean that the Department's savings originally projected to be 15million are effectively being secured at the company's expense Actions taken by MoJ also had the effect of hampering the inquiry when HMCTS issued an edict to its staff instructing them not to participate in the Committee's online consultation established to invite direct observations from frontline staff of the performance of ALS *Pre-legislative Scrutiny of the Children and Families Bill* Great Britain: Parliament: House of Commons: Justice Committee,2012-12-18 Additional written evidence is contained in Volume 2 available on the Committee website at www.parliament.uk/justicecommittee *Ministry of Justice financial management* Great

Britain: Parliament: House of Commons: Committee of Public Accounts,2012-03-20 The Ministry has improved its financial management since the Committee's last report in January 2011 HC 574 ISBN 9780215556042 Many of the Ministry's processes have improved including modelling and forecasting but the Ministry has not achieved significant improvements in the delivery of key financial outcomes and therefore has much still to do The most serious issue is the Ministry's inability to report its financial affairs on a timely and accurate basis The Ministry's own resource accounts for 2010-11 were delivered late and there were significant problems with the accounts produced by two of its major arms-length bodies the Legal Services Commission and HM Courts Service's Trust Statement The Ministry faces significant accounting challenges for the 2011-12 financial year due to the required earlier publication of the accounts The Ministry needs to break the cycle of continuing failure to produce accurate and timely accounts It also faces considerable challenges in meeting its tough spending review commitments but without a full understanding of its costs the Ministry risks unnecessarily cutting frontline services which are critical to the poorest in the community rather than ensuring savings are achieved through genuine efficiencies Maximising the income it obtains will help the Ministry and fine collection is improving but it is being outpaced by the growth in fines outstanding Excellent financial management is critical to the Ministry's future success as it seeks to achieve significant efficiency gains while coping with workload pressures such as increases in the prison population that are largely outside its control

The Democratic Courthouse Linda Mulcahy,Emma Rowden,2019-09-20 The Democratic Courthouse examines how changing understandings of the relationship between government and the governed came to be reflected in the buildings designed to house the modern legal system from the 1970s to the present day in England and Wales The book explores the extent to which egalitarian ideals and the pursuit of new social and economic rights altered existing hierarchies and expectations about how people should interact with each other in the courthouse Drawing on extensive public archives and private archives kept by the Ministry of Justice but also using case studies from other jurisdictions the book details how civil servants judges lawyers architects engineers and security experts have talked about courthouses and the people that populate them In doing so it uncovers a changing history of ideas about how the competing goals of transparency majesty participation

security fairness and authority have been achieved and the extent to which aspirations towards equality and participation have been realised in physical form As this book demonstrates the power of architecture to frame attitudes and expectations of the justice system is much more than an aesthetic or theoretical nicety Legal subjects live in a world in which the configuration of space the cues provided about behaviour by the built form and the way in which justice is symbolised play a crucial but largely unacknowledged role in creating meaning and constituting legal identities and rights to participate in the civic sphere Key to understanding the modern day courthouse this book will be of interest to scholars and students in all fields of law architecture sociology political science psychology and criminology **Criminal Justice** Peter Joyce, 2013 This book assesses the main theories concerned with the causes of crime and provides an account and analysis of the response of the state to crime in England and Wales It is a useful text for students taking courses in criminal justice
