TO INVESTIGATE THE PROCESS OF MEIOSIS

Organisms produced by sexual reproduction are truly new organisms. They have different sets of genes from their parents. The gametes formed by meiosis are just for the purpose of sexual reproduction. Gametes cannot grow into another organism until they fuse with another gamete to form a zygote. When the zygote forms, it is genetically unique.

Genetic variation allows a species to have a better chance of adapting to and surviving sudden changes in the environment. No two individuals in a sexually reproducing population are exactly the same. Meiosis during sexual reproduction therefore ensures maximum genetic variation and improved the chances of a species' survival.

Digital Suffragists Marie Tessier,2021-10-05 Why women s voices are outnumbered online and what we can do about it by a New York Times comment moderator If you ve read the comments posted by readers of online news sites you may have noticed the absence of women s voices Men are by far the most prolific commenters on politics and public affairs When women do comment they are often attacked or dismissed more than men are In fact the comment forums on news sites replicate conditions of the offline and social media worlds where women are routinely interrupted threatened demeaned and called wrong unruly disgusting and out of place In Digital Suffragists Marie Tessier a veteran journalist and a New York Times comment moderator for more than a decade investigates why women s voices are outnumbered online and what we can do

about it The suffragists of the early twentieth century were jailed for trying to vote Can a twenty first century democracy be functional when half of the population is not fully represented in a primary form of political communication Tessier shows that for online comments it s a design problem the linear blog comment formula was based on deeply gender biased assumptions Technologies designed with a broad range of end users in mind she points out are more successful and beneficial than those that reflect the designer s own habits of mind Tessier outlines benchmarks for a more democratic media all of which stem from one fundamental idea media must adopt gender and racial representation as key performance indicators Equal speaking time for women is a measure of democracy
