How to Make the Body Jennifer Creech, Thomas O. Haakenson, 2022-05-05 How to Make the Body Difference Identity and Embodiment brings together contemporary and historical readings of the body exploring the insights and limits of established and emerging theories of difference identity and embodiment in a variety of German contexts The engaging contributions to this volume utilize and challenge cutting edge approaches to scholarship on the body by putting these approaches in direct conversation with canonical texts and objects as well as with lesser known yet provocative emerging forms To these ends the chapter authors investigate the body through detailed studies across a wide variety of disciplines and modes of expression from advertising aesthetics and pornography to social media scientific experimentation and transnational cultural forms Thus this volume showcases the ways in which the body as such cannot be taken for granted and surmises that the body continues to undergo constant and potentially disruptive diversification and transformation

Indecent Bodies in Early Modern Visual Culture Fabian Jonietz, Mandy Richter, Alison Stewart, 2025-10-01 The life like depiction of the body became a central interest and defining characteristic of the European Early Modern period that coincided with the establishment of which images of the body were to be considered decent and representable and which disapproved censored or prohibited Simultaneously artists and the public became increasingly interested in the depiction of specific body parts or excretions This book explores the concept of indecency and its relation to the human body across drawings prints paintings sculptures and texts The ten essays investigate questions raised by such objects about practices and social norms regarding the body and they look at the particular function of those artworks within this discourse The heterogeneous media genres and historical contexts north and south of the Alps studied by the authors demonstrate how the alleged indecency clashed with artistic intentions and challenges traditional paradigms of the historiography of Early Modern visual culture

Fuhring, Louis Marchesano, Remi Mathis, Vanessa Selbach, 2015-06-18 Once considered the golden age of French printmaking Louis XIV's reign saw Paris become a powerhouse of print production During this time the king aimed to make fine and decorative arts into signs of French taste and skill and by extension into markers of his imperialist glory Prints were ideal for achieving these goals reproducible and transportable they fueled the sophisticated propaganda machine circulating images of Louis as both a man of war and a man of culture This richly illustrated catalogue features more than one hundred prints from the Getty Research Institute and the Bibliothèque nationale de France in Paris whose print collection Louis XIV established in 1667 An esteemed international group of contributors investigates the ways that cultural policies affected printmaking explains what constitutes a print describes how one became a printmaker studies how prints were collected and considers their reception in the ensuing centuries A Kingdom of Images is published to coincide with an exhibition on view at the Getty Research Institute from June 18 through September 6 2015 and at the Bibliothèque nationale de France in Paris from November 2 2015 through January 31 2016
