Liferay in Action is the official guide to building Liferay portal applications using Java and JavaScript. If you've never used Liferay before, don't worry. This book starts with the basics: setting up your development environment and creating a working portal. Then it builds on that foundation to help you discover social features, tagging, ratings, and more. You'll also explore the Portlet 2.0 API and learn to create custom themes and reusable templates. Experienced developers will learn how to use new Liferay APIs to build social and collaborative sites, use the message bus and workflow, implement indexing and search, and more. This book was developed in close collaboration with Liferay engineers, so it answers the right questions and answers them in depth. No experience with Liferay or the Portlets API is required, but basic knowledge of Java and web technology is assumed. Purchase of the print book comes with an offer of a free PDF, ePub, and Kindle eBook from Manning. Also available is all code from the book.

What's Inside: Complete coverage of Liferay Portal 6. Covers both the commercial and open source versions. Custom portlet development using the Portlet 2.0 spec. Liferay's social network API. Add functionality with hooks and Ext plugins. Table of Contents:
