Christian Theology in Practice Bonnie J. Miller-McLemore, 2012-02-02 For the past fifty years scholars in both pastoral and practical theology have attempted to recapture human religious experience and practice as essential sites for theological engagement redefining in the process what theology is how it is done and who does it In this book Bonnie J Miller McLemore shows how this trend in scholarship has led to an expanded subject matter alternative ways of knowing and richer terms for analysis in doing Christian theology Tracing more than two decades of her own search for a more inclusive discipline one that truly grapples with theology in the midst of life Christian Theology in Practice shows not only where Miller McLemore herself has traveled in the field but also how pastoral and practical theology has developed during this time Looking forward Miller McLemore calls on the academy and Christian congregations to disrupt conventional theological boundaries and to acknowledge the multiplicity of shapes and places in which the wisdom of God appears

For Life Abundant Dorothy C. Bass, Craig Dykstra, 2008-04-29 Bass and Dykstra have written extensively and collaboratively on Christian Practices arguing that the what Christians have done faithfully over time constitutes a life giving way of life and that this living of Christianity is more primary to what it means to be Christian than doctrinal confession that our confessions spring from faithful living rather than the other way around This book contains numerous essays that take up the question of Christian Practices and ministry the preparation of ministers theological education etc in a post Enlightenment understanding of the relationship of practice and head knowledge Because the book is the result of a community conversation it doesn't have a clear thesis but it models its conviction that reflection on theology arises from community conversation around our life in discipleship together An extremely helpful beginning to a conversation about ministry practices of faith clergy preparation etc as the time has come to integrate the kind of learning that comes in the classroom with the kind that only comes from living the faith with others Amazon.com

Cultivating Competence Sarah B. Drummond,2025-08-19 Institutions demand that leaders attend to a vast array of concerns on a daily basis In an increasingly diverse wired and fast paced leadership landscape where problems are deep seated and complicated no one can manage leadership alone Leaders must attend to their own leadership development just to keep their heads above water They must also delegate their authority and entrust it to those around them That said handing over authority to those who lack adequate preparation can cause harm to the community It can also burn out a person who could have contributed meaningfully to the community over years or decades Delegation without preparation represents a failure of a leader to protect a community s assets The institutional leader must model that leadership can and must be learned over time through various disciplines that all start with taking leadership seriously Then they must provide opportunities with however light a touch leads to positive results for those in their care to grow in leadership They must assume that even those who walk in the door with knowledge and experience are not ready for leadership today for it is changing fast for everyone

Mea Culpa Elma Chopra,2019-01-23 The acceptable sins are subtle in the sense that they deceive us into thinking they are not so bad or not thinking of them as sins or even worse not thinking about them at all Many people walk in the way of the Lord and do

their best to follow His word but sometimes people make mistakes It is human nature for both those who have and have not found God Mea Culpa author Elma Chopra s latest book discusses the acceptable or subtle sins that many devout Christians commit in everyday life at times without realizing it Elma Chopra a born again Catholic examines the subtle ways in which humans can sin such as being judgmental or prideful Even though those who have found God try to follow His word and Jesus example there are small moments where these sins can occur Being prideful of your good works done for the community Being thankless and joyless in what God has commanded you to do Sins such as these can slip by the wayside never to be addressed Using examples from her own life stories of others and scripture Elma shows Christians how to relate to what they are experiencing Rather than to refuse to admit that they sin she encourages Christians to reconcile themselves to the fact of sin and work to recognize and deal with it After showing an understanding of how sins can slip into our lives without being noticed the final chapters offer steps toward dealing with sins and healing to assist readers Here prayer testimony and experience contribute to the reader s journey towards restoration If believers can acknowledge and seek forgiveness for their subtle sins they will be following God s command With this book Elma hopes to bring herself and others closer to the Lord
