Meat A Natural Symbol:

Meat Nick Fiddes, 2004-01-14 This book is a broad ranging and provocative study of the human passion for meat It will intrigue anyone who has ever wondered why meat is important to us why we eat some animals but not others why vegetarianism is increasing why we aren't cannibals and how meat is associated with environmental destruction *Natural Symbols* Mary Douglas, 2002-09-11 Every natural symbol derived from blood breath or excrement carries a social meaning and this work focuses on the ways in which any one culture makes its selections from body symbolism Each person treats their body as an image of society and the author examines the varieties of ritual and symbolic expression and the patterns of social ritual in which they are embodied *Natural Symbols* is a book about religion and it concerns our own society at least as much as any other It has stimulated new insights into religious and political movements and has provoked re appraisals of current progressive orthodoxies in many fields As a classic it represents a work of anthropology in its widest sense exploring themes such as the social meaning of natural symbols and the image of the body in society which are now very much in vogue in anthropology sociology and cultural studies In this reissue and with a new Introduction *Natural Symbols* will continue to appeal to all students of anthropology sociology and religion **Natural Symbols** Professor Mary Douglas, Mary Douglas, 2004-06-01 One of the most important works of modern anthropology Written against the backdrop of the student uprisings of the late 1960s the book took seriously the revolutionary fervour of the times but instead of seeking to destroy the rituals and symbols that can govern and oppress Mary Douglas saw instead that if transformation were needed it could only be made possible through better understanding Expressed with clarity and dynamism the passionate analysis which follows remains one of the most insightful and rewarding studies of human behaviour ever written **Nature Ethics** Marti Kheel, 2008 In *Nature Ethics An Ecofeminist Perspective* Marti Kheel explores the underlying worldview of nature ethics offering an alternative ecofeminist approach Seeking to heal the divisions between the seemingly disparate movements and philosophies of feminism animal advocacy environmental ethics and holistic health Kheel proposes an ecofeminist philosophy that underscores the importance of empathy and care for individual beings as well as larger wholes [Canadian Issues in Environmental Ethics](#) Wesley Cragg, Allan Greenbaum, Alex Wellington, 1997-06-10 Is it possible to design a forest policy that satisfies ethical and environmental concerns and is acceptable to business labour and First Nations representatives What is the best path through the tangle of ethical issues surrounding the collapse of the east coast fishery What sort of obligations does a rich nation such as Canada have to satisfy the claims of global environmental justice These are the sorts of issues in applied ethics that are tackled in this collection of essays the vast majority of which have been written especially for this volume It is the first Canadian collection of its kind The book is divided into sections detailing with such topics as the environment and the economy ethical issues relating to non human animals issues of gender and issues relating to native peoples Most of the authors are philosophers though specialists in geography geology and the social sciences are also among

the contributors Frequent reference is made to theoretical ethical concerns but the focus throughout is on applied ethics and a variety of case studies are included Examples include essays on animal rights and the case of native hunters surface mining in Northern Ontario the Quebec arctic and fishing communities in the Maritimes Comparisons are frequently drawn to policies and ethical questions arising in other countries most prominently the United States

Thinking Through the Environment Mark J. Smith, 2005-09-30 This broad ranging and thought provoking set of readings stresses the diversity of responses in the way the natural environment has been understood and questioned in the modern world

Vegetarian and Plant-Based Diets in Health and Disease Prevention François Mariotti, 2017-05-23 Vegetarian and Plant Based Diets in Health and Disease Prevention examines the science of vegetarian and plant based diets and their nutritional impact on human health This book assembles the science related to vegetarian and plant based diets in a comprehensive balanced single reference that discusses both the overall benefits of plant based diets on health and the risk of disease and issues concerning the status in certain nutrients of the individuals while providing overall consideration to the entire spectrum of vegetarian diets Broken into five sections the first provides a general overview of vegetarian plant based diets so that readers have a foundational understanding of the topic Dietary choices and their relation with nutritional transition and sustainability issues are discussed The second and third sections provide a comprehensive description of the relationship between plant based diets and health and disease prevention The fourth section provides a deeper look into how the relationship between plant based diets and health and disease prevention may differ in populations with different age or physiological status The fifth and final section of the book details the nutrients and substances whose intakes are related to the proportions of plant or animal products in the diet Discusses the links between health and certain important characteristics of plant based diets at the level of food groups Analyzes the relation between plant based diet and health at the different nutritional levels i e from dietary patterns to specific nutrients and substances Provides a balanced evidence based approach to analyze the positive and negative aspects of vegetarianism Addresses the different aspects of diets predominantly based on plants including geographical and cultural variations of vegetarianism

Animal Industries Taina Syrjämaa, Marja Jalava, Taija Kaarlenkaski, Otto Latva, Eeva Nikkilä, Tuomas Räsänen, 2024-04-01 This book examines an extremely topical phenomenon the massive industrial exploitation of animals from a previously neglected perspective It explores the history and development of animal industries in Nordic countries from their establishment in the late nineteenth century to the present day These countries are often considered to be progressive and advanced in animal protection but consumption practices in this area are actually excessive in relation to planetary resources and are among the most unsustainable on a global scale If we want to understand current problems it is essential to be aware of long term changes and continuities as well as the diversity of animals that have been exploited The purpose of this book is to explain these changes and provide new knowledge for scholars in human animal studies decisionmakers and the general public

Animals, Rights and Reason in Plutarch and

Modern Ethics Stephen T. Newmyer, 2013-04-15 This groundbreaking volume explores Plutarch's unique survival in the argument that animals are rational and sentient and that we as humans must take notice of their interests Exploring Plutarch's three animal related treatises as well as passages from his ethical treatises Stephen Newmyer examines arguments that strikingly foreshadow those found in the works of such prominent animal rights philosophers as Peter Singer and Tom Regan Unique in viewing Plutarch's opinions not only in the context of ancient philosophical and ethical thought but also in its place in the history of animal rights speculation *Animals Rights and Reasons* points out how remarkably Plutarch differs from such anti animal thinkers as the Stoics Classicists philosophers animal welfare students and interested readers will all find this book an invaluable and informative addition to their reading

Deep Vegetarianism, Challenging the basic assumptions of a meat eating society *Deep Vegetarianism* is a spirited and compelling defense of a vegetarian lifestyle Considering all of the major arguments both for and against vegetarianism and the habits of meat eaters vegetarians and vegans alike Michael Allen Fox addresses vegetarianism's cultural historical and philosophical background details vegetarianism's impact on one's living and thinking and relates vegetarianism to classical and recent defenses of the moral status of animals Demonstrating how a vegetarian diet is related to our awareness of the world and our ethical outlook on life Fox looks at the different kinds of vegetarian commitments people make and their reasons for making them In chapters that address such issues as the experiences emotions and grounds that are part of choosing vegetarianism Fox discusses not only good health animal suffering and the environmental impacts of meat production but such issues as the meaning of food world hunger religion and spirituality and significantly the links share between vegetarianism and other human rights movements and ideologies particularly feminism In an extensive chapter that addresses arguments made by advocates of meat eating Fox speaks to claims of humans as natural carnivores animals as replaceable and vegetarians as anti feminist He also addresses arguments surrounding the eating habits of indigenous peoples eating free range animals and carnivorous behavior among animals The most complete examination of the vegetarian outlook to date *Deep Vegetarianism* reveals the broad range of philosophical views that contribute to such a choice It recognizes and calls for a conscious awareness of and an individual responsibility to the issues that exist in the moral political and social spheres of our existence With its lively and controversial discussion *Deep Vegetarianism* promises to appeal to anyone looking to explore the relationship between dietary choice lifestyle the treatment of animals and the environment and personal ethical responsibility It will also be particularly useful for students and teachers of moral philosophy ethics religion comparative cultures ecology and feminism

Climate Change, Cattle, and the International Legal Order Rebecca Williams, 2024-05-30 Livestock food systems need to be rapidly rethought to tackle the global climate crisis This book examines how climate concerns for the livestock sector are governed in international law and addresses the sector's inclusion or lack thereof across the international governance of climate change agriculture forests and trade The book provides a wide ranging analysis of legal regimes at the international level that affect

emissions from cattle and where relevant livestock more broadly On this basis tensions interactions and common themes for livestock emissions mitigation across the international climate change forestry agricultural and agri trade regime are identified This showcases where productive synergies and damaging tensions have emerged across the cross cutting nature of livestock governance enabling goals of fairer and more effective emissions mitigation for the sector to be achieved In addition to addressing issues such as food security and public health the book highlights the problem of affluence in reducing cattle emissions from meat consumption This key insight is significant in terms of tackling future livestock emissions trajectories particularly in relation to securing climate justice within the agricultural sector and securing equitable and effective livestock solutions The book is a key text for all those with an interest in the legal governance of climate change and agriculture adding to the timely debate on the future sustainability of the global diet and the relationship between affluence and climate change

Critical Animal and Media Studies Núria Almiron, Matthew Cole, Carrie P. Freeman, 2015-10-14 This book aims to put the speciesism debate and the treatment of non human animals on the agenda of critical media studies and to put media studies on the agenda of animal ethics researchers

Contributors examine the convergence of media and animal ethics from theoretical philosophical discursive social constructionist and political economic perspectives The book is divided into three sections foundations representation and responsibility outlining the different disciplinary approaches application to media studies and covering how non human animals and the relationship between humans and non humans are represented by the mass media concluding with suggestions for how the media as a major producer of cultural norms and values related to non human animals and how we treat them might improve such representations

The Good Eater Nina Guilbeault, 2024-04-16 Not to be missed Michael Pollan via X An enlightening and delicious look at how vegans and their critics are redefining the way the world eats in the twenty first century For years there has been no doubt that widespread consumption of meat is both environmentally destructive and morally dubious A growing chorus of scientists health experts and activists champion the benefits of a plant based diet Nevertheless change has been slow to arrive and the chasm between our appetites and our collective well being seems impossibly vast We know we must transition to a more plant based world But what would such a world look like and how do we realistically get there One group of people has been grappling with this question for decades vegans Once mocked for its hempy puritanism the vegan movement has grown from a fringe identity into a veritable cultural juggernaut Yet visions of what our food system should look like continue to conflict Is the healthful vegan lifestyle appealing or alienating Are high tech meat alternatives merely a repeat performance of harmful fast food values Is modern veganism itself misguided a wrong answer to the right questions In *The Good Eater* Harvard trained sociologist and vegan Nina Guilbeault PhD vividly explores the movement s history and its present day tensions by grappling with the most fundamental question of all Is there a truly ethical way to eat What emerges is a fascinating portrait of how social change happens with profound implications for our plates and our planet

Food and Sustainability in the Twenty-First Century Paul Collinson, Iain Young, Lucy Antal, Helen Macbeth, 2019-06-06 Sustainability is one of the great problems facing food production today Using cross disciplinary perspectives from international scholars working in social cultural and biological anthropology ecology and environmental biology this volume brings many new perspectives to the problems we face Its cross disciplinary framework of chapters with local regional and continental perspectives provides a global outlook on sustainability issues These case studies will appeal to those working in public sector agencies NGOs consultancies and other bodies focused on food security human nutrition and environmental sustainability

Animals and Agency Sarah McFarland, Ryan Hediger, 2009-06-02 While many scholars who write about animals deal with animal agency in some way this volume is the first to position the question of nonhuman agency as the primary focus of inquiry Section I presents studies of actual animals demonstrating agency Section II moves agency into new terrain while considering key representations of animal agency in literature Section III analyzes animals as mediators and as conveyances of human to human communication and Section IV investigates the agency of beings who defy conventional species categories The *Envoi* demonstrates how the microscopic polyp is interwoven

into notions of agency and mythical superagency This volume s interdisciplinary explorations press hard on issues of agency to open up space for more questions about how we can understand relationships between the human and the nonhuman

Sustainable governance and management of food systems Eija Vinnari,Markus Vinnari,2023-08-07 This book focuses on the role of governance and management in the food chain These methods are now especially important as the current food system has been found to inflict unsustainable environmental pressures on our planet These include but are not limited to greenhouse gas emissions biodiversity loss excessive water usage and problems with nutrition cycles In addition issues such as the treatment of farm animals has attracted considerable media and public attention from the ethical point of view Therefore the prominent questions discussed in this book are What are the most important ethical issues in our fisheries agriculture and food systems How should we govern food systems when sustainability is a key goal What kind of management tools are available for this purpose Who is responsible for making the agriculture and food system more sustainable
