comprehension questions on the next page.

Ellen Ochoa, born on May 10, 1968, is a trailblazing astronaut, engineer, and STEM advocate. Her groundbreaking achievements have left an indelible mark on space exploration and science education.

After earning her bachelor's degree in physics from San Diego State University, Ochoa went on to obtain a master's degree and a Ph.D. in electrical engineering from Stanford University. Her expertise in optical systems and laser technology paved the way for a successful career at NASA.

In 1996, Ellen Ochoa made history as the first Hispanic woman to travel to space when she served as a mission specialist aboard the space shuttle *Discovery*. She embarked on a total of four space missions, spending over 175 hours in space. Her contributions to the field of space science and her exceptional performance in spaceflight earned her widespread recognition and accolades.

Beyond her achievements in space, Ellen Ochoa has been a steadfast advocate for science education and STEM (Science, Technology, Engineering, and Mathematics) fields. She served as the Director of the Johnson Space Center, becoming the first Hispanic and second female to hold this position. In this role, Ochoa prioritized inspiring the next generation of scientists and engineers.

Throughout her career, Ellen Ochoa has been honored with numerous awards, including NASA's Distinguished Service Medal and the Hispanic Heritage Leadership Award. She continues to inspire and empower aspiring astronauts and scientists, encouraging diversity and inclusion in these fields.

As a visionary leader, dedicated scientist, and passionate advocate for education, Ellen Ochoa's legacy serves as an inspiration for individuals from all backgrounds to reach for the stars and make their mark in the world of science and exploration.

On a Mission Valerie Neal, 2025-10-28. The definitive history of all 61 American women astronauts that's perfect for fans of *The Six*. Sally Ride became a household name as the first American woman in space, but scores of equally impressive women have also left their mark in space. *On a Mission*, The Smithsonian History of US Women Astronauts, spans 45 years and 61 astronauts to share the epic journeys of women who made space for themselves in a male-dominated field. Valerie Neal, emerita curator in the Department of Space History at the Smithsonian's National Air and Space Museum, offers a culturally insightful history of the experiences of women astronauts, the challenges they've faced, and their distinctive stories. Collectively, they've completed more than 100 space shuttle missions and more than 30 long-duration stays on the International Space Station and Russian Space Station Mir, and they continue to prove themselves in present-day space exploration efforts. The book includes 50 black and white photographs to complement the historical account. With its sweeping look from the first women astronauts to Christina Hammock Koch, assigned to the first crewed Artemis mission around the Moon, there is no comparably thorough book on America's women astronauts. *On a Mission* is an inspiring tribute to unsung women's history.
