Eloge De La Philosophie Antique:

Eloge de la philosophie antique Pierre Hadot, 1997 Dans toutes les écoles seront ainsi pratiqués des exercices destinés à assurer le progrès spirituel vers l'attribution de la sagesse des exercices de la raison qui seront pour lui analogues l'entraînement de l'athlète et aux pratiques d'une cure médicale D'une manière générale ils consistent surtout dans le contrôle de soi et dans la méditation Le contrôle de soi est fondamentalement attention soi-même vigilance tendue dans le stoïcisme renoncement aux désirs superflus dans l'apicurisme , Logical Fictions in Medieval Literature and Philosophy Virginie Greene, 2014-10-23 In the twelfth and thirteenth centuries new ways of storytelling and inventing fictions appeared in the French speaking areas of Europe This new art still influences our global culture of fiction Virginie Greene explores the relationship between fiction and the development of neo Aristotelian logic during this period through a close examination of seminal literary and philosophical texts by major medieval authors such as Anselm of Canterbury Abelard and Chrétien de Troyes This study of Old French logical fictions encourages a broader theoretical reflection about fiction as a universal human trait and a defining element of the history of Western philosophy and literature Additional close readings of classical Greek philosophers Plato and Aristotle and modern analytic philosophy including the work of Bertrand Russell and Rudolf Carnap demonstrate peculiar traits of Western rationalism and expose its ambivalent relationship to fiction **Augustine and Postmodernism** John D. Caputo, Michael J. Scanlon, 2005-03-10 At the heart of the current surge of interest in religion among contemporary Continental philosophers stands Augustine's Confessions With Derrida's Circumfession constantly in the background this volume takes up the provocative readings of Augustine by Heidegger Lyotard Arendt and Ricoeur Derrida himself presides over and comments on essays by major Continental philosophers and internationally recognized Augustine scholars While studies on and about Augustine as a philosopher abound none approach his work from such a uniquely postmodern point of view showing both the continuing relevance of Augustine and the religious resonances within postmodernism Posed at the intersection of philosophy theology and religious studies this book will be of interest to scholars and students of Augustine as well as those interested in the invigorating discussion between philosophy religion and postmodernism Contributors include Geoffrey Bennington Philippe Capelle John D Caputo Elizabeth A Clark Hent de Vries Jacques Derrida Jean Bethke Elshtain Richard Kearney Catherine Malabou James O'Donnell Michael J Scanlon and Mark Vessey Indiana Series in the Philosophy of Religion Merold Westphal general editor **Le christianisme et la fin de la philosophie antique** Charles Corbière, 1921 *Chiasmi International* 17 Aa. Intellectual giant of the Christian West Saint Augustine is also one of its greatest spiritual masters To this man of desire and friendship Christ taught to purify everything in charity to direct everything towards God to unify everything in communion His thought profoundly influenced the history of Catholicism and the vigor of his view of the human heart responds to today's concerns Fr Emmanuel Marie presents beautiful insights into this timeliness message of desire and unity of Augustine which offers us a living message charged with hope

Foucault and Neoliberalism Daniel Zamora, Michael C. Behrent, 2016-01-06 Michel Foucault's death in 1984 coincided with the fading away of the hopes for social transformation that characterized the postwar period In the decades following his death neoliberalism has triumphed and attacks on social rights have become increasingly bold If Foucault was not a direct witness of these years his work on neoliberalism is nonetheless prescient the question of liberalism occupies an important place in his last works Since his death Foucault's conceptual apparatus has acquired a central even dominant position for a substantial segment of the world's intellectual left However as the contributions to this volume demonstrate Foucault's attitude towards neoliberalism was at least equivocal Far from leading an intellectual struggle against free market orthodoxy Foucault seems in many ways to endorse it How is one to understand his radical critique of the welfare state understood as an instrument of biopower Or his support for the pandering anti Marxism of the so called new philosophers Is it possible that Foucault was seduced by neoliberalism This question is not merely of biographical interest it forces us to confront more generally the mutations of the left since May 1968 the disillusionment of the years that followed and the profound transformations in the French intellectual field over the past thirty years To understand the 1980s and the neoliberal triumph is to explore the most ambiguous corners of the intellectual left through one of its most important figures

The Religious Concordance Joshua Hollmann, 2017-05-01 In *The Religious Concordance* Nicholas of Cusa and Christian Muslim Dialogue Joshua Hollmann examines Nicholas of Cusa's unique Christocentric approach to Islam While many late medieval Christians responded to the fall of Constantinople with polemic Nicholas of Cusa wrote a peaceful dialogue *De pace fidei* between Christians and Muslims as synthesis of religious concordance through the person and work of Jesus Christ Nicholas of Cusa's Christ centered dialogue with Muslims sheds further light on his broader Christ centered theology over his entire career as philosopher and theologian Drawing upon Nicholas of Cusa's philosophical foundations for religious dialogue and peace Joshua Hollmann convincingly proves that Cusa constructively understands religious diversity through the concordance of religion as centred in Christ

publica de Cicerón El filósofo, el psicólogo y el maestro Fernando Fuentes Megías, 2020-02-01 Enseñar filosóficamente es
mostrar como lo hacen Pierre Hadot y Michel Foucault que por encima del conocimiento de esta o aquella teoría de este o
aquel concepto se encuentra la posibilidad del sujeto de abrir nuevos modos de desarrollo al ser en su propia humanidad y en
la de los otros Un filósofo enseña a vivir en una determinada relación con la verdad con uno mismo y con los otros Pero un
psicólogo es un modelo un guía de almas un pionero que se atreve a recorrer sendas nuevas inexploradas enseñando posibles
caminos a otros que habrán de seguirlos y más tarde abandonarlos a su manera Y es un maestro aquel que ha dejado atrás la
concepción de una verdad como fórmula universal solución y resolución del ser humano para elevarse a la idea de una verdad
como búsqueda Los asuntos de los que se ocupa este ensayo son importantes y desde luego merece la pena considerarlos
estudiosamente y con cierto detenimiento Todo tiene que ver con una antigua tradición intelectual que en el mundo helen
ístico y romano consideraba la filosofía resultado de una elección existencial como una forma de vida un cierto arte de vivir o
dicho en los términos que Pierre Hadot trata en sus investigaciones y que entre otros Michel Foucault recoge a después como
un ejercicio espiritual El filósofo antiguo antes de ponerse a escribir y componer un discurso hablaba y no podía hacerlo sino
en el seno de una relación con aquellos que querían iniciarse en la búsqueda de la sabiduría con el único propósito de aprender
el arte del cuidado de sí mismos aprendiendo a estar enteramente presentes en cada aquí y ahora para afrontar las pruebas de
vida y el acontecimiento de la muerte con cierta dignidad y serenidad Filosofamos o sea aspiramos a la sabiduría porque
somos finitos porque tenemos un conocimiento anticipado de nuestra muerte porque el ser humano es el único ser que sabe
que va a morir y ese saber le angustia Los autores de los que habla Fernando Fuentes en su ensayo y en especial Hadot y
Foucault mencionaron estas cosas y en sus libros ensayos conferencias y entrevistas nos dejaron un legado que nosotros
podemos leer ahora para nuestro propio buen uso quizá porque eso que llamamos educación no tiene que ver con otra cosa
que con el aprendizaje de un buen uso de uno mismo **Platon, l'âme et le bien** Martine Chiffot, 2015-01-29 Martine
Chiffot dit les choses essentielles Elle rappelle que le rayonnement du Bien attire l'âme et la préoccupe fondamentalement et
que cette préoccupation donne lieu à une appréhension qui même défaillante même impossible est la fin véritable de la
connaissance La question de la finalité ne prend tout son sens qu'avec l'idée du Bien Or cette leçon nous est donnée par Platon
Baldine Saint Girons Les trois termes qui forment le titre de l'essai de M Chiffot constituent en fait les points les plus
lumineux d'une constellation de thèmes qui leur sont corréls Aussi est-il la question de la mort et de l'au-delà du corps ou de la

Volume 11, Tome II: Kierkegaard's Influence on Philosophy Jon Stewart, 2016-12-05

Kierkegaard's relation to the field of philosophy is a particularly complex and disputed one He rejected the model of philosophical inquiry that was mainstream in his day and was careful to have his pseudonymous authors repeatedly disassociate themselves from philosophy But although it seems clear that Kierkegaard never regarded himself as a philosopher there can be no doubt that his writings contain philosophical ideas and insights and have been profoundly influential in a number of different philosophical traditions The tomes in this volume seek to document the different traditions of the philosophical reception of Kierkegaard's thought and the articles demonstrate the reach of Kierkegaard's writings in philosophical contexts that were often different from his own The present volume attempts to document these different traditions of the philosophical reception of Kierkegaard's thought The articles featured here aim to demonstrate the vast reach of Kierkegaard's writings in philosophical contexts that were often quite different from his own Tome II is dedicated to exploring Kierkegaard's influence on Francophone philosophy The French intellectual tradition squares well with Kierkegaard's eclectic profile since its leading figures are often difficult to classify unambiguously as philosophers theologians literary critics or simply writers Kierkegaard's thinking was highly influential for many generations of French philosophers right up to the present It was not just existentialism that tried to co-opt Kierkegaard for its own purposes he has also been influential in the context of almost every modern school of French thought phenomenology feminism structuralism post structuralism semiotics and deconstruction
