English Home Language Paper2 November Memorandum 2013:

Language and Sustainable Development Lisa J. McEntee-Atalianis, Humphrey Tonkin, 2023-03-03 This book addresses the importance of language in matters of sustainability and incorporating such concerns in implementing the UN's Sustainable Development Goals (SDGs). Sustainable language policy must aim to include all groups including language minorities and marginalized populations such as refugees and aid recipients in conditions that allow for their inclusion in making and implementing policy. The book brings together nine studies covering such topics as language and digital resources, sustainable and inclusive multilingual education, national language policy, and language in peacekeeping operations. A final chapter addresses the crucial intersection between sociolinguistics and economics and the implications of this for development and the SDGs.

Regulating Information Asymmetry in the Residential Real Estate Market Devin Lin, 2017-07-06 This book conducts a detailed examination of the current form of the Hong Kong residential property regulatory system, the 2013 Residential Properties (Firsthand Sales) Ordinance (Cap 621). The author sheds light on how the new legislation promotes a number of values including information symmetry, consumer protection, the free market, and business efficacy. It provides a detailed account of how the regulatory mechanism has evolved over the past three decades to catch unconscionable sales tactics such as selective information and/or misrepresentation of location, size, completion date, and past transactions, and monitor sales practices in order to protect the interests of stakeholders in this ever-changing first-hand residential property market. This book breaks down this complicated subject matter by focusing a number of chapters each on a specific attribute of the residential property on sale. It then examines the various channels through which the information is communicated to the prospective buyer and discusses misrepresentation of the key information in sales of residential properties as criminal liability. The tension between consumer's rights on one hand and the pursuit of free market principles on the other is but one example of the conflicting values thoroughly discussed in the book; others include superstition vs modernization and clarity vs flexibility. Aimed at those with an interest in consumer protection and transparency-oriented legislation in commercialized real estate transactions, this book seeks to provide an in-depth discussion of the latest trends and directions of travel.

Left Out Kimberley Reynolds, 2016 *Left Out* presents an alternative and corrective history of writing for children in the first half of the twentieth century. Between 1910 and 1949 a number of British publishers, writers, and illustrators included children's literature in their efforts to make Britain a progressive, egalitarian, and modern society. Some came from privileged backgrounds, others from the poorest parts of the poorest cities in the land; some belonged to the metropolitan intelligentsia or bohemia, others were working-class autodidacts, but all sought to use writing for children and young people to create activists, visionaries, and leaders among the rising generation. Together they produced a significant number of both politically and aesthetically radical publications for children and young people. This radical children's literature was designed to ignite and underpin the work of making a new Britain for a new kind of Briton. While there are

many dedicated studies of children's literature and children's writers working in other periods the years 1910-1949 have previously received little critical attention. In this study Kimberley Reynolds shows that the accepted characterization of interwar children's literature as retreatist, anti-modernist and apolitical is too sweeping and that the relationship between children's literature and modernism, left-wing politics and progressive education has been neglected. **The Welsh Language Commissioner in Context** Diarmait Mac Golla Chríost, 2016-07-20. It is the first book on the subject; much of the research data provides a unique insight to the development of government policy and is exclusive to this book. Several of the research results are quite striking and will be of great interest to academics and policy actors alike. Living by the Gun in Chad Marielle Debos, 2016-10-15. How do people live in a country that has experienced rebellions and state-organised repressions for decades and that is still marked by routine forms of violence and impunity? What do combatants do when they are not mobilised for war? Drawing on over ten years of fieldwork conducted in Chad, Marielle Debos explains how living by the gun has become both an acceptable form of political expression and an everyday occupation. Contrary to the popular association of violence and chaos, she shows that these fighters continue to observe rules, frontiers and hierarchies even as their allegiances shift between rebel and government forces and as they drift between Chad, Libya, Sudan and the Central African Republic. Going further, she explores the role of the globalised politico-military entrepreneurs and highlights the long involvement of the French military in the country. Ultimately, the book demonstrates that ending the war is not enough. The issue is ending the inter-war which is maintained and reproduced by state violence. Combining ethnographic observation with in-depth theoretical analysis, Living by the Gun in Chad is a crucial contribution to our understanding of the intersections of war and peace. The Common European Sales Law in Context Gerhard Dannemann, Stefan Vogenauer, 2013-03-21. The recently proposed Common European Sales Law is intended to overcome differences between national contract laws. 19 chapters co-authored by British and German scholars investigate for the first time how the projected CESL would interact with various aspects of English and German law. **Theater Week**, 1995.
