overstretched America but also of the rise and fall and rise of the great powers of Asia The about turn of Japan from a colossus seemingly poised for world domination to a nation in inexorable decline in the space of two decades has few parallels in modern history as does the rapid rise of China a country whose military is now larger than those of Japan South Korea Taiwan and southeast Asia s combined The confrontational course on which China and Japan are set is no simple spat between neighbors the United States would be involved on the side of Japan in any military conflict between the two countries The fallout would be an economic tsunami affecting manufacturing centers trade routes and political capitals on every continent Richard McGregor s book takes us behind the headlines of his years reporting as the Financial Times s Beijing and Washington bureau chief to show how American power will stand or fall on its ability to hold its ground in Asia

The Law of Insurance Warranties Alastair Owen,2021-06-21 The book provides a detailed review of efforts to reform the law on insurance warranties in Australia New Zealand and the UK arguing that none of these have been successful The text proposes a radical new approach to reform of this area of the law demonstrating through detailed stress testing of these proposals that they would deliver more consistent and equitable outcomes than those achieved to date Reform of the historically inequitable law of insurance warranties in commercial insurance has been introduced in Australia New Zealand and most recently the UK This book demonstrates that all these reforms have flaws and that none of them can be relied upon to deliver consistently equitable and predictable outcomes in particular the UK s as yet largely untested Insurance Act 2015 is shown to have serious flaws that have not previously been identified Building on lessons from these three jurisdictions the book sets out an alternative approach for dealing with breaches of insurance warranties and demonstrates that this would consistently deliver better outcomes than any of the existing attempts at reforming this area of the law Providing an unprecedented multi jurisdictional review of the law on insurance warranties and in particular the treatment of warranties in the Insurance Act 2015 as well as outlining an innovative and radical alternative approach to reform the book will be of considerable interest and value to practitioners academics and students as well as to other common law jurisdictions contemplating reform of this area of the law

The Welsh Criminal Justice System Robert Jones,Richard Wyn Jones,2022-10-15 This study represents the first systematic attempt to explore the functioning of the policing and criminal justice system in post devolution Wales Its particular relevance is underscored by the revelation that Wales has the highest imprisonment rate in western Europe Drawing on official data as well as extensive interviews with senior figures this book represents the first systematic exploration of the operation of the justice system in Wales across the jagged edge of devolved and non devolved functions There remains little understanding of how the justice system operates in the anomalous circumstances of post devolution Wales This book aims to fill this gap in understanding and concludes with an assessment of the proposals of the Commission on Justice in Wales for reform

[Science, Sexuality, and Race in the United States and Australia, 1780-1940](#) Gregory D. Smithers,2017-07 [Science Sexuality and Race in the United States and Australia 1780 1940](#)

Revised Edition is a sociohistorical tour de force that examines the entwined formation of racial theory and sexual constructs within settler colonialism in the United States and Australia from the Age of Revolution to the Great Depression Gregory D Smithers historicizes the dissemination and application of scientific and social scientific ideas within the process of nation building in two countries with large Indigenous populations and shows how intellectual constructs of race and sexuality were mobilized to subdue Aboriginal peoples Building on the comparative settler colonial and imperial histories that appeared after the book's original publication this completely revised edition includes two new chapters In this singular contribution to the study of transnational and comparative settler colonialism Smithers expands on recent scholarship to illuminate both the subject of the scientific study of race and sexuality and the national and interrelated histories of the United States and Australia

Volatility and friction in the age of disintermediation Tim Sweijts,Stephan De Spiegeleire ,Sijbren de Jong,Willem Oosterveld ,Hannes Roos, Frank Bekkers ,Artur Usanov,Robert de Rave,Karlijn Jans ,2017-02-20 Events unfolded once again at a swirling pace in 2016 Terrorists hit Europe's capital in March The British population voted for Brexit in June Turkish armed forces failed to topple Erdoğan in July A resurgent Russia flexed its military muscles again in the Middle East and actively interfered in American elections in which the American population elected Trump in November We are worried but certainly not surprised by the volatility of contemporary international relations In previous editions of our contribution to the Dutch government's Strategic Monitor we already observed a surge in assertive behavior noted a dangerous uptick in crises and warned for the contagiousness of political violence The current volatility is not a coincidence but rather the result of fundamental disturbances of the global order that are greatly amplified by rapid technological developments Most mainstream explanations of recent turbulence focus on power transitions the decline of the West and the rise of the rest the concomitant return to more aggressive forms of power politics and a backlash against globalization What strikes us is that many of the explanations ignore what we consider one of the most striking mega trends that is reshaping the dynamics of power the ongoing process of disintermediation The StratMon 2016 2017 analyzes global trends in confrontation cooperation and conflict based on different datasets This year the report also contains case studies on Turkey Moldova and The rise and fall of ISIS Chapters analyzing the many faces of political violence and the other side of the security coin are also included
