GCSE English for OCR John Reynolds, Ron Norman, 2002 This book is tailored to the OCR English GCSE specification so you can be sure all aspects are covered

Rationing Education David Gillborn, Deborah Youdell, 1999-12-16 This research should make us extremely sceptical that the constant search for higher standards and for ever increasing achievement scores can do much more than put in place seemingly neutral devices for restratification Michael W Apple John Bascom Professor of Curriculum and Instruction and Educational Policy Studies University of Wisconsin Madison Recent educational reforms have raised standards of achievement but have also resulted in growing inequalities based on race and social class School by school league tables play a central role in the reforms These have created an A to C economy where schools and teachers are judged on the proportion of students attaining five or more grades at levels A to C To satisfy these demands schools are embracing new and ever more selective attempts to identify ability Their assumptions and practices embody a new IQism a simple narrow and regressive ideology of intelligence that labels working class and minority students as likely failures and justifies rationing provision to support those often white middle class boys already marked for success This book reports detailed research in two secondary schools showing the real costs of reform in terms of the pressures on teachers and the rationing of educational opportunity It will be important reading for any teacher researcher or policymaker with an interest in equality in education

Citizenship and Moral Education Mark Halstead, Mark Pike, 2006-08-21 Moral and citizenship education are again at the forefront of educational attention with the recent governmental announcements about revisions to the National Curriculum frameworks to 2000 and beyond This book addresses some of the central issues in moral and

citizenship education facing teachers today embedding practical considerations in a theoretical context and reviewing teaching learning and assessment strategies It draws extensively on research but is written in a clear accessible style Citizenship and Moral Education examines the key concepts and provides an up to date overview of policy particularly addressing theoretical issues aims and approaches in relation to moral and citizenship education in a pluralist society the contributions of the curriculum extra curricular activities and the school ethos to citizenship and moral education in school teaching strategies materials pupil assessment and school evaluation The book also focuses on key professional and personal issues for teachers in undertaking moral citizenship education **Seven Myths About Education** Daisy

Christodoulou,2014-03-14 In this controversial new book Daisy Christodoulou offers a thought provoking critique of educational orthodoxy Drawing on her recent experience of teaching in challenging schools she shows through a wide range of examples and case studies just how much classroom practice contradicts basic scientific principles She examines seven widely held beliefs which are holding back pupils and teachers Facts prevent understanding Teacher led instruction is passive The 21st century fundamentally changes everything You can always just look it up We should teach transferable skills Projects and activities are the best way to learn Teaching knowledge is indoctrination In each accessible and engaging chapter Christodoulou sets out the theory of each myth considers its practical implications and shows the worrying prevalence of such practice Then she explains exactly why it is a myth with reference to the principles of modern cognitive science She builds a powerful case explaining how governments and educational organisations around the world have let down teachers and pupils by promoting and even mandating evidence less theory and bad practice This blisteringly incisive and urgent text is essential reading for all teachers teacher training students policy makers head teachers researchers and academics around the world **The Introduction and Comparing of HSK with IB, AP, SAT, CIE IGCSE, Edexcel**

IGCSE, GCSE, AQA GCSE Chinese, 2020 DAVID YAO,2020-08-15 The Introduction and Comparing of HSK with IB AP SAT CIE IGCSE Edexcel IGCSE GCSE AQA GCSE Chinese 2020 HSK ISBN 9798675573684 There are many international Chinese examinations offered by different examination boards such as IB AP SAT CIE IGCSE Edexcel IGCSE GCSE AQA GCSE In this comprehensive book we will give the summary and Comparing of HSK Chinese Proficiency Test the test conducted by Chinese government to overseas students outside China This is quick reference for students and parents when they decide which exam for them to choose This is based on our more 25 years Chinese teaching as second language and our more than 300 video courses and publications as an Online contents provider *From GCSEs to EBCs* Great Britain. Parliament. House of Commons. Education Committee,2013 The Government's plans for replacing GCSEs with new English Baccalaureate Certificates in some subjects is trying to do too much too fast Introducing several fundamental changes at the same time and to a tight timetable will jeopardise the quality of the reforms and may threaten the stability of the wider exam system GCSEs need significant improvements in order to restore public confidence in the exam system but the Government still needs to

make the case that the GCSE brand is so discredited that it is beyond repair MPs are also concerned about the impact of the changes on subjects outside the English Baccalaureate where students will be taking GCSEs for some time to come according to the Government's plans The report also questions how well the Government's proposals will serve lower attaining pupils who are often the most disadvantaged There is no evidence that the proposed changes will help to tackle under achievement or narrow the attainment gap between the richest and poorest students any more effectively than GCSEs The Government is also called upon to re think its plans for a Statement of Achievement specifically for lower attaining pupils MPs agree that changes are needed to the way in which exams are run but they raise serious concerns about franchising subjects to exam boards The report is critical of the Government's decision to abolish some GCSEs before publishing the outcomes of the National Curriculum Review and its proposed changes to the school accountability system MPs also note the wide ranging stakeholder opposition to many of the Government's proposals
