The Inequality Paradox Douglas McWilliams, 2018-10-09 In his illuminating new book Douglas McWilliams argues that inequality is largely driven not by a conspiracy of the rich as Thomas Piketty suggests but by technology and globalization that have led to the paradox of rising inequality even as worldwide poverty drops But what are the implications of this seeming contradiction and what ultimately drives the global distribution of wealth What can societies do to reshape capitalism for the 21st century Drawing on the latest research McWilliams investigates how wealth is concentrated and why it persistently remains in the hands of very few In accessible and thought provoking prose McWilliams poses a comprehensive theory on why capitalism has not met its match in the form of increasingly disparate income distribution but warns of the coming wave of technological development the fourth industrial revolution that threatens to create a scarcity of unskilled jobs that will lead to even greater inequality and explains what governments can do to prepare for this From the inquisitive layperson to the professional economist or policymaker The Inequality Paradox is essential reading for understanding the global economy in its present state McWilliams is a fresh authoritative voice entering the global discussion making this book indispensable in preparing for the imminent economic challenges of our changing world

The Return of Egypt Stefano M. Torelli, 2015-09-17 Egypt has reappeared again as a leading actor in the Middle East After the fall of Mubarak the rise to power of the Muslim Brotherhood and its ouster the country has chosen its new strongman Following the elections of al Sisi Egypt is back to pursuing a pro active policy not only internally but also in the neighbourhood The restoration of the strategic axis with Saudi Arabia and the struggle against radical Islam are the two pillars of this new political phase However there are critical elements too from further deterioration of the political and civil liberties indexes to the emergence of jihadist groups in the Sinai to the enduring economic and financial difficulties As a result of these changes Europe and Italy should calibrate a new policy aimed at safeguarding their interests especially from the points of view of security stability and the fight against terrorism also promoting more inclusive practices by the Cairo government vis vis the opposition including the Muslim Brotherhood and developing policies which can help Egypt to respond to future challenges in terms of economic growth poverty alleviation demographic pressure and the creation of employment opportunities

Material Politics of Citizenship Nina Amelung, Cristiano Gianolla, Joana Sousa Ribeiro, Olga Solovova, 2021-11-17 From the intersection of citizenship critical migration studies and science and technology studies STS this book examines across the various case studies configurations between technologies infrastructures and citizenship that may constrain acts of citizenship in migration and border regimes constitute contestation and participation over citizenship or enable and shape alternative acts of citizenship in migration and border regimes Technologies and infrastructures on the border are designed to position migrants in multiple and potentially contradictory forms migrants crossing the border in their turn may choose to challenge and repurpose those technologies and infrastructures to match their interests By elaborating on the notion of material citizenship politics the contributors provide a detailed analysis of socio material practices on the border that moves beyond portraying migrants as mere victims of border technologies and migration infrastructures and anchors critique on the inside of those practices The chapters in this volume hope to contribute to setting the research agenda and to stimulate further research along these lines revisiting the in visibilities of migrant subjects along technologies and infrastructures As the current pandemic unfolds exposing societal vulnerabilities this book highlights the need to critically reflect on the establishment of existing technologies and infrastructures in order to examine to what extent those affect and shape migrant subjects in particular but may also be extended and used on wider populations after being tested

and normalized on vulnerable subjects This book will be of interest to a broad readership across the social sciences including scholars working in Critical Migration and Border Studies Citizenship Studies Critical Security Studies and Science and Technology Studies The chapters in this book were originally published in the journal Citizenship Studies **Language Learning and Leisure** Denyze Toffoli,Geoffrey Sockett,Meryl Kusyk,2023-07-04 The study of informal involvement with additional languages has recently emerged as a dynamic research field in SLA With the rapid development and spread of internet based technologies contact with foreign languages outside the classroom has become commonplace While this can take multiple forms online contents are a major driving force because they present learners with unprecedented opportunities for exposure to and use of target languages regardless of their physical location Research from diverse geographical educational and socio economic contexts bring a rich variety of perspectives to this book It explores these phenomena via a range of theoretical frameworks and methodological approaches focusing particularly on individual differences and language development The volume proposes that teachers in formal learning settings should seek to support and facilitate the development of these identities and practices and it indicates means they can adopt to best do so
