Reviving Citizen Engagement Larry N. Gerston, 2014-12-11 Whereas our nation was once united in purpose today it is bitterly divided Why Racial discrimination diminishing educational opportunities poor economic mobility greedy corporations and an unresponsive federal government have combined to create two Americas Presented in Gerston's characteristic no holds barred style of wit and candor Revi

Taylor's 7th Teaching and Learning Conference 2014 Proceedings Siew Fun Tang, Loshinikarasi Logonnathan, 2015-06-01 These conference proceedings showcase a rich and practical exchange of approaches and vital evidence based practices taking place around the world They clarify the complex challenges involved in bringing about a holistic educational environment in schools and institutes of higher learning that fosters greater understanding and offer valuable insights on how to avoid the pitfalls that come with rolling out holistic approaches to education To do so the proceedings focus on the subthemes Support and Development Mobility and Diversity and Networking and Collaboration in Holistic Education

Bread, Freedom, Social Justice Anne Alexander, Mostafa Bassiouny, 2014-10-09 Accounts of the Arab Spring often focus on the role of youth coalitions the use of social media and the tactics of the Tahrir Square occupation This authoritative and original book argues that collective action by organised workers played a fundamental role in the Egyptian revolution which erupted after years of strikes and social protests Drawing on the authors decade long experience of reporting on and researching the Egyptian labour movement the book provides the first in depth account of the emergence of independent trade unions and workers militancy during Mubarak's last years in power and their destabilising impact on the post revolutionary regimes

The Education Invasion Joy Pullmann, 2017-03-14 Most Americans had no idea what Common Core was in 2013 according to polls But it had been creeping into schools nationwide over the previous three years and children were feeling its effects They cried over math homework so mystifying their parents could not help them even in elementary school They read motley assortments of informational text instead of classic literature They dreaded the high stakes tests in unfamiliar formats that were increasingly controlling their classrooms How did this latest and most sweeping reform of American education come in mostly under the

radar Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers and it led to a big tangle of history and politics intrigue and arrogance She unwound it to discover how a cabal of private foundation honchos and unelected public officials cooked up a set of rules for what American children must learn in core K 12 classes and how the Obama administration pressured states to adopt them Thus a federalized education scheme took root despite legal prohibitions against federal involvement in curriculum Common Core and its testing regime were touted as an absolute game changer in public education yet the evidence so far suggests that kids are actually learning less under it Why then was such a costly and disruptive agenda imposed on the nation s schools Who benefits And how can citizens regain local self governance in education so their children s minds will be fed a more nourishing intellectual diet and be protected from the experiments of emboldened bureaucrats The Education Invasion offers answers and remedies *Approaches to Inclusive English Classrooms* Kate Mastruserio Reynolds,2015-03-02 This book provides educators with an accessible guide to best practices concerning content based instruction CBI models and their use in English learner inclusive classrooms The author effectively bridges the gap between theory and practice with a critical analysis of practical examples and diverse strategies for the inclusion of English learners into K 12 general education courses The book also raises controversial questions regarding who is qualified to teach English learners and who is responsible for doing so looking at the difficulties faced by both general educators and ESL teachers in Inclusive Classrooms By providing a lens through which both ESL teachers and general educators are able to analyze compare and contrast a range of widely employed CBI methods this book allows teachers to make informed decisions in their EL program development and work with English learners in K 12 schools Marxist Historiographies Q. Edward Wang,Georg G. Iggers,2015-07-16 Marxist Historiographies is the first book to examine the ebb and flow of Marxist historiography from a global and cross cultural perspective Since the eighteenth century few schools of historical thought have exerted a more lasting impact than Marxism and this impact extends far beyond the Western world within which it is most commonly analysed Edited by two highly respected authors in the field this book deals with the effect of Marxism on historical writings not only in parts of Europe where it originated but also in countries and regions in Africa Asia North and South America and the Middle East Rather than presenting the chapters geographically it is structured with respect to how Marxist influence was shown in the works of historians in a particular area This title takes a dual approach to the subject some chapters are national in scope addressing the Marxist impact on historical practices within a country whereas others deal with the varied expressions of Marxist historiography throughout a wider region Taking a truly global perspective on this topic Marxist Historiographies demonstrates clearly the breadth and depth of Marxism s influence in historical writing throughout the world and is essential reading for all students of historiography **Global Encyclopedia of Public Administration, Public Policy, and Governance** Ali Farazmand,2023-04-05 This global encyclopedic work serves as a comprehensive collection of global scholarship regarding the vast fields of public administration public policy

governance and management Written and edited by leading international scholars and practitioners this exhaustive resource covers all areas of the above fields and their numerous subfields of study In keeping with the multidisciplinary spirit of these fields and subfields the entries make use of various theoretical empirical analytical practical and methodological bases of knowledge Expanded and updated the second edition includes over a thousand of new entries representing the most current research in public administration public policy governance nonprofit and nongovernmental organizations and management covering such important sub areas as 1 organization theory behavior change and development 2 administrative theory and practice 3 Bureaucracy 4 public budgeting and financial management 5 public economy and public management 6 public personnel administration and labor management relations 7 crisis and emergency management 8 institutional theory and public administration 9 law and regulations 10 ethics and accountability 11 public governance and private governance 12 Nonprofit management and nongovernmental organizations 13 Social health and environmental policy areas 14 pandemic and crisis management 15 administrative and governance reforms 16 comparative public administration and governance 17 globalization and international issues 18 performance management 19 geographical areas of the world with country focused entries like Japan China Latin America Europe Asia Africa the Middle East Russia and Eastern Europe North America and 20 a lot more Relevant to professionals experts scholars general readers researchers policy makers and manger and students worldwide this work will serve as the most viable global reference source for those looking for an introduction and advance knowledge to the field

Children's Voices: Studies of interethnic conflict and violence in European schools Mateja Sedmak,Zorana Medarić,Sarah Walker,2014-05-09 How are the processes of increasing ethnic and racial diversity reflected in European schools How do children and educators experience and perceive interethnic relations in schools This book examines the issues of interethnic coexistence the management of ethnic diversity xenophobic and racial attitudes and in particular the under researched topic of interethnic violence among children in the school environment Drawing together qualitative and quantitative data across five European countries it offers an insight into the views personal experiences and responses of children from different ethnic backgrounds to interethnic violence in European schools International contributors from England Slovenia Cyprus Italy and Austria come together to provide a comparative study of experiences of interethnic conflict and violence in primary and secondary school classrooms Each chapter focuses on positive measures that can combat discrimination providing examples of good practice as well as considering the position of the school in promoting citizenship in an increasingly global world By examining the experiences and perspectives of children educators and experts the book provides up to date research findings in the field and suggests key mechanisms for addressing interethnic violence in schools With support schools can play a key role in alleviating interethnic tensions and combatting ethnocentrism through the implementation of strong policies acting as protected spaces Children s Voices Studies of interethnic conflict and violence in European schools is of international relevance both within Europe and beyond and will appeal to researchers

teachers and policy makers concerned with race equality in the classroom Comparing Post War Japanese and Finnish Economies and Societies Yasushi Tanaka,Toshiaki Tamaki,Jari Ojala,Jari Eloranta,2014-11-13 This book compares two countries with striking parallels in economic and political outcomes yet with some distinct features in terms of institutional structures relative size and culture Therefore this book forms a fruitful platform for the study of the similarities and differences in the economic and societal development of Japan and Finland Despite their geographic distance from one another and the aforementioned differences both countries experienced rather similar economic and societal development patterns after the Second World War The study of these societies both individually and through commonalities will provide a unique perspective on the emergence of modern economies and institutions The book provides comprehensive coverage on issues such as welfare state formation and society security and military spending education system industrial development international trade governmental economic policies energy solutions and bubbles and their collapse thus issues typical for these countries as well as most modern states studied from a longitudinal perspective The book aims to answer a fundamental question in social science Why do there seem to be common trends and developmental paths among countries differing in size culture and economic structure This book will provide insights for those seeking to decipher how the developments in their own countries came about and where they may be headed to **Local Government in Australia** Bligh Grant,Joseph Drew,2017-03-06 This book offers a general introduction to and analysis of the history theory and public policy of Australian local government systems Conceived in an international comparative context and primarily from within the discipline of political studies it also incorporates elements of economics and public administration Existing research tends to conceptualise Australian local government as an element of public policy grounded in an administrative science approach A feature of this approach is that generally normative considerations form only a latent element of the discussions which is invariably anchored in debates about institutional design rather than the normative defensibility of local government The book addresses this point by providing an account of the terrain of theoretical debate alongside salient themes in public policy *The Transformation of Human Rights Fact-finding* Philip Alston,Sarah Knuckey,2016 Fact finding is at the heart of human rights advocacy and is often at the center of international controversies about alleged government abuses In recent years human rights fact finding has greatly proliferated and become more sophisticated and complex while also being subjected to stronger scrutiny from governments Nevertheless despite the prominence of fact finding it remains strikingly under studied and under theorized Too little has been done to bring forth the assumptions methodologies and techniques of this rapidly developing field or to open human rights fact finding to critical and constructive scrutiny The Transformation of Human Rights Fact Finding offers a multidisciplinary approach to the study of fact finding with rigorous and critical analysis of the field of practice while providing a range of accounts of what actually happens It deepens the study and practice of human rights investigations and fosters fact finding as a discretely studied topic while mapping crucial transformations in the

field The contributions to this book are the result of a major international conference organized by New York University Law School's Center for Human Rights and Global Justice Engaging the expertise and experience of the editors and contributing authors it offers a broad approach encompassing contemporary issues and analysis across the human rights spectrum in law international relations and critical theory This book addresses the major areas of human rights fact finding such as victim and witness issues fact finding for advocacy enforcement and litigation the role of interdisciplinary expertise and methodologies crowd sourcing social media and big data and international guidelines for fact finding

Handbook on China and Developing Countries Carla P Freeman, 2015-04-30 This Handbook explores the rapidly evolving and increasingly multifaceted relations between China and developing countries Cutting edge analyses by leading experts from around the world critically assess such timely issues as the China model Beijing

Leveled Reading, Leveled Lives Timothy Shanahan, 2025-07-28 An engaging and evidence based examination of how reading instruction has been misinterpreted and misapplied for decades and how to right the course to improve reading skills for all students In Leveled Reading Leveled Lives leading literacy expert Timothy Shanahan curates a lively tour of the history of reading instruction in the United States arguing that the most popular reading instruction method is failing students and suppressing their literacy achievement He breaks down the reasons why teachers and researchers alike have favored this accepted wisdom known as instructional level theory in US schools over the past five decades and presents a compelling case for a new way forward that will bolster students reading skills Today it's not uncommon to find students in a fourth grade classroom reading books suitable for third second or even first graders Teachers suggest books to students at their deemed instructional levels but how these instructional levels are determined is suspect With a comprehensive critical analysis of instructional level pedagogy Shanahan exposes its shaky foundations and shows how faulty research findings have become so entrenched He gathers an extensive body of research studies that overwhelmingly contradict the instructional level theory and offers an evidence based consideration of how educators must instead use grade level reading to bring about maximum learning gains This seminal book concludes with practical advice for implementing grade level reading instruction including detailed descriptions of the types of instruction and scaffolding needed to increase students reading achievement from teaching decoding and challenging texts to scaffolding reading to maintaining motivation Shanahan asserts that a better approach can ensure that all students have an opportunity to leave high school with reading abilities commensurate with their personal social civic and economic goals

Class Size Peter Blatchford, Kam Wing Chan, Maurice Galton, Kwok Chan Lai, John Chi-Kin Lee, 2016-04-28 Much debate research and commentary about class sizes in schools is limited because of an exclusive concern with class size and pupil academic attainment and a neglect of classroom processes which might help explain class size effects or lack of them Very little is known about the central question how can teachers make the most of class size changes Much of the commentary on class size effects has focused on Western and English speaking countries but there are promising

developments elsewhere particularly the Small Class Teaching initiatives in East Asia in the past decade which have brought new knowledge and practical wisdom to the class size debate This book seeks to move toward a clearer view of what we know and do not know about class size effects and to identify future steps in terms of policy and research There is a huge and exciting potential for international collaboration on knowledge concerning class size effects which can help with research informed policy The book aims to draw out Eastern and Western international contexts which underpin any understanding of the role of class size in school learning The book has chapters by an international team of experts on class size effects including Maurice Galton and John Hattie Chapters are organised into four main sections Socio cultural and political contexts to the class size debate in the East and West Research evidence on class size Class size and classroom processes likely to be related to class size changes Professional development for small class teaching in East Asia

Handbook of Welfare in China B. Carrillo, J. Hood, P. I. Kadetz, 2017-07-28 The Handbook is a timely compilation dedicated to exploring a rare diversity of perspectives and content on the development successes reforms and challenges within China's contemporary welfare system It showcases an extensive introduction and 20 original chapters by leading and emerging area specialists who explore a century of welfare provision from the Nationalist era up to and concentrating on economic reform and marketisation 1978 to the present Organised around five key concerns social security and welfare emerging issues and actors gaps future challenges chapters draw on original case based research from diverse disciplines and perspectives engage existing literature and further key debates

Nothing Personal? Nick Gill, 2016-02-23 In this groundbreaking new study Nick Gill provides a conceptually innovative account of the ways in which indifference to the desperation and hardship faced by thousands of migrants fleeing persecution and exploitation comes about Features original unpublished empirical material from four Economic and Social Research Council ESRC funded projects Challenges the consensus that border controls are necessary or desirable in contemporary society Demonstrates how immigration decision makers are immersed in a suffocating web of institutionalized processes that greatly hinder their objectivity and limit their access to alternative perspectives Theoretically informed throughout drawing on the work of a range of social theorists including Max Weber Zygmunt Bauman Emmanuel Levinas and Georg Simmel

English-Medium Instruction in European Higher Education Slobodanka Dimova, Anna Kristina Hultgren, Christian Jensen, 2015-07-24 This volume provides a focused account of English Medium Instruction EMI in European higher education considering issues of ideologies policies and practices This is an essential book for academics students policy makers and educators directly or indirectly implicated in the internationalization of European higher education
