Ethnographic Choices A Primer On Doing Complex Social Research:

Ethnographic Choices Christopher Bollinger, Denise Menchaca, Phil Ruge-Jones, Angela Schnelle, Rebecca Acy, Taylor Choate, Kate Miller, 2014-11-21 Ethnographic Choices is the outcome of a collaborative effort among teachers and students Our goal was to develop a primer teaching ethnography that resists oversimplifying complex human dynamics but remains accessible to undergraduate students This book focuses on what a person new to the field needs to know in order to deeply engage the method We have chosen to provide specific examples with more detail excavating the complexity of data collection analysis and representation We have also chosen to focus more on critical cultural approaches attending to race gender and class Conversely we have sacrificed some attention to history and breadth of the field While this too is important we believe the value of ethnography is best learned through doing the method and doing so with attention to the complexity of the method

Age of the Geek Kathryn E. Lane, 2017-10-29 This collection examines the nerd and or geek stereotype in popular culture today Utilizing the media film TV YouTube Twitter fiction that often defines daily lives the contributors interrogate what it means to be labeled a nerd or geek While the nerd geek that is so easily recognized now is assuredly a twenty first century construct an examination of the terms history brings a greater understanding of their evolution From sports to slasher films Age of the Geek establishes a dialogue with texts as varied as the depictions of nerd or geek stereotypes

Introduction to Ethnographic Research Kimberly Kirner, Jan Mills, 2019-09-05 The text is grounded in high impact teaching including peer to peer and project based learning Such practices are widely supported as being useful for student success particularly for under prepared and disadvantaged students The text is methodological in nature not scholarship oriented It does draw the majority of its examples from the authors scholarship in anthropology

Feminist Research Practice: A Primer Sharlene Nagy Hesse-Biber, Patricia Lina Leavy, 2007 This volume accomplishes a great deal combining theory and practice abstract concepts and realistic workable suggestions Many of the studies and stories are fascinating as well as valuable research paradigms

CONTEMPORARY PSYCHOLOGY The topic of feminist research has frequently been neglected in standard research methods books The purpose of this Primer is to invite students to explore the range of feminist perspectives including feminist empiricist feminist standpoint and postmodern perspectives in order to bridge the divide between theory and research methods This text provides a unique hands on approach to research by providing exercises and behind the scenes glimpses of feminist researchers at work The in depth examples cover the range of research questions that feminists engage with including issues of gender inequality violence against women body image issues and the discrimination of other ed marginalized groups The Primer is written in a clear concise manner that offers students the opportunity to explore and practice a wide range of research from ethnography oral history focus groups and content analysis to interviewing and survey research A full chapter is devoted to feminist approaches to mixed methods research Feminist Research Practice A Primer is committed to the idea that research methods are best understood utilizing a

hands on pedagogy Research tips and checklists are provided along the way for the novice researcher *Information Design for the Common Good* Courtney Marchese, 2021-08-12 This book explores the increasing altruistic impulse of the design community to address some of the world's most difficult problems including social political environmental and global health causes at the local national and global scale Each chapter strategically combines theory and practice to examine how to identify causes and locate accurate data truth and integrity in information design the information design data visualization process understanding audiences crafting meaningful narratives and measuring the impact of a design A variety of international case studies and interviews with practitioners illustrate the challenges and impact of designing for social agendas These range from traditional media outlets like The New York Times and The Guardian popular science organizations like National Geographic and Scientific America to health institutes like The World Health Organization and The Center for Disease Control This book allows the novice information designer to create compelling human centered information narratives which make a difference in our world *Choice*, 1999 **Architecture Competition** Ignaz Strebel, Jan Silberberger, 2017-02-24 Much valued by design professionals controversially discussed in the media regularly misunderstood by the public and systematically regulated by public procurement in recent years architecture competitions have become projection screens for various and often incommensurable desires and hopes Almost all texts on architectural competition engage it for particular reasons whether these be for celebration of the procedure or dismissal Moving on from such polarised views *Architecture Competition* is a revelatory study on what really happens when competitions take place But the story is not just about architecture and design it is about the whole construction process from the definition of the spatial programme to judgement and selection of projects and the realization of the building This book explores the competition in the building process as it takes place but also before and after its execution It demonstrates that competitions are not just one step of many to be taken but that competitive design procedures shape the entire process Along the way the book exposes among others one of the key evolutions of design competitions that competition procedures need to be regulated in order to respond to public awarding rules and need to integrate an increasing amount of given standards regarding for example efficiency fire safety and thermal comfort These notions force competing architects to respond to inflexible and overloaded competition programmes instead of focusing on genuinely crafting an architectural project If the architecture competition wants to be more highly valued as a design tool it should pay attention to the iterative nature of design and to the fact that perspectives on the problem often change in process *Book Review Digest*, 1977 Excerpts from and citations to reviews of more than 8 000 books each year drawn from coverage of 109 publications *Book Review Digest* provides citations to and excerpts of reviews of current juvenile and adult fiction and nonfiction in the English language Reviews of the following types of books are excluded government publications textbooks and technical books in the sciences and law Reviews of books on science for the general reader however are included The reviews originate in a group of

selected periodicals in the humanities social sciences and general science published in the United States Canada and Great Britain Publisher **Resources in Education** ,1993 **A comunicação das mudanças climáticas** Debika Shome,Sabine Marx,2016-12-12 As sociedades precisam ser motivadas e capacitadas para adotar as mudanças necessárias no combate às mudanças climáticas Para isso o público deve ser capaz de interpretar e responder a informações científicas tecnológicas e econômicas que são muitas vezes de difícil compreensão Esse guia detalha muitas das barreiras de comunicação científica e ao processamento de informações Apresenta-se como ferramenta que ajudará nossa sociedade a tomar as medidas necessárias para reagir com urgência e precisão a um dos maiores desafios já enfrentados pela humanidade as ameaças ambientais em escala global Jeffrey Sachs Universidade de Columbia
