Face Mask Template Badger:

Modeling Classic Combat Aircraft, 2003 Modeling Classic Combat Aircraft brings together a collection of FineScale Modeler magazine articles on modeling some of the world's most popular and notable combat aircraft of the last 60 years. The articles featured in the pages of this book were deliberately selected and edited by FSM Editor Mark Thompson to provide you with a unique opportunity to peer over master modelers' shoulders as they work step by step to assemble, convert, detail, paint, and decal such historic warbirds as the P-51 Mustang, Messerschmitt Bf 109, A6M5 Zero, Avro Lancaster, MiG-17, F-14 Tomcat, B-52H, and many others. Regardless of the scale or era of aircraft you prefer, you'll find in *Modeling Classic Combat Aircraft* easy-to-follow diagrams, crisp photos, concise instructions, and the proven techniques that will help you complete realistic and dramatic showcase models. Book jacket

The Do-it-yourself Guide to Custom Painting Bruce Caldwell, Larry Schreib, Larry Atherton, 1988 [Automotive Paint from Prep to Final Coat](#) JoAnn Bortles, 2014-07-15

DIV Solvent-based paints have been used in automotive applications since the days when automobiles were called buggies and the horsepower was provided by well horses. But recent EPA regulations have restricted solvent-based paints for use only in approved professional paint booths, meaning that do-it-yourselfers can no longer use them, and it won't be long before their use is banned entirely. Paint manufacturers have raced to develop water-based paints as a replacement for the solvent-based paints previously used. These new water-based automotive paints are of very high quality, but they require different methods and techniques for proper application, virtually rendering previous automotive paint books obsolete. *divDIV divDIV Automotive Paint from Prep to Final Coat* is the first book to provide instruction in these new paints. In addition to this critical information, author and top professional painter JoAnn Bortles covers all the techniques necessary to get the great results your car deserves. From initial body panel preparation to troubleshooting common problems to application of the final coat, and all steps in between, this book is the only reference you will need to ensure your DIY automotive paint job is done right the first time. *div*

Decorating with Stencils Tony Roche, Patricia Monahan, 1995 Offers more than thirty projects from lampshades to decorating entire rooms and presents basic stenciling techniques including applying paint and drawing templates

How to Master Airbrush Painting Techniques JoAnn Bortles, 2007-01-15 Clear step-by-step lessons from the master in the technology and techniques of airbrush art for any vehicle or surface
