### **Making College Work** Harry J. Holzer, Sandy

Baum, 2017-08-15 Practical solutions for improving higher education opportunities for disadvantaged students Too many disadvantaged college students in America do not complete their coursework or receive any college credential while others earn degrees or certificates with little labor market value Large numbers of these students also struggle to pay for college and some incur debts that they have difficulty repaying The authors provide a new review of the causes of these problems and offer promising policy solutions The circumstances affecting disadvantaged students stem both from issues on the individual side such as weak academic preparation and financial pressures and from institutional failures Low income students disproportionately attend schools that are underfunded and have weak performance incentives contributing to unsatisfactory outcomes for many students Some solutions including better financial aid or academic supports target individual students Other solutions such as stronger linkages between coursework and the labor market and more structured paths through the curriculum are aimed at institutional reforms All students and particularly those from disadvantaged backgrounds also need better and varied pathways both to college and directly to the job market beginning in high school We can improve college outcomes but must also acknowledge that we must make hard choices and face difficult tradeoffs in the process While no single policy is guaranteed to greatly improve college and career outcomes implementing a number of evidence based policies and programs together has the potential to improve these outcomes substantially

### Decision

Making for Student Success Benjamin L. Castleman, Saul Schwartz, Sandy Baum, 2015-03-12 Each year many students with affordable college options and the academic skills needed to succeed do not enroll at all enroll at institutions where they are not well positioned for success or drop out of college before earning a credential Efforts to address these challenges have included changes in financial aid policy increased availability of information and enhanced academic support This volume argues that the efficacy of these strategies can be improved by taking account of contemporary research on how students make choices In Decision Making for Student Success scholars from the fields of behavioral economics education and public policy explore contemporary research on decision making and highlight behavioral insights that can improve postsecondary access and success This exciting volume will provide scholars researchers and higher education administrators with valuable perspectives and low cost strategies that they can employ to improve outcomes for underserved populations

### *Fiscal*

*Therapy* William G. Gale, 2019-03-01 Keeping the economy strong will require addressing two distinct but related problems Steadily rising federal debt makes it harder to grow our economy boost our living standards respond to wars or recessions address social needs and maintain our role as a global leader At the same time we have let critical investments lag and left many people behind even as overall prosperity has grown In *Fiscal Therapy* William Gale a leading authority on how federal tax and budget policy affects the economy provides a trenchant discussion of the challenges posed by the imbalances

between spending and revenue America is facing a gradual decline as debt accumulates and delay raises the costs of action But there is hope fiscal responsibility aligns with both conservative and liberal goals and citizens of all stripes can support the notion of making life better for our children and grandchildren Gale provides a plan to make the economy and nation stronger one that controls entitlement spending but preserves and enhances their anti poverty and social insurance roles increases public investments on human and physical capital and raises and reforms taxes to pay for government services in a fair and efficient way What is needed he argues is to balance today s needs against tomorrow s obligations We face significant fiscal challenges but if we are wise enough to seize our opportunities we can strengthen our economy increase opportunity reduce inequality and build better lives for our children and grandchildren We do not have to kill popular programs or starve government Indeed one main goal of fiscal reform is to maintain the vital functions that government provides We need to act responsibly pay for the government we want and shape that government in ways that serve us best
