Rationing and Resource Allocation in

Healthcare Ezekiel Emanuel, Harald Schmidt, Andrew Steinmetz, 2018-05-10 Budgets of governments and private insurances are limited Not all drugs and services that appear beneficial to patients or physicians can be covered Is there a core set of benefits that everyone should be entitled to If so how should this set be determined Are fair decisions just impossible if we know from the outset that not all needs can be met While early work in bioethics has focused on clinical issues and a narrow set of principles in recent years there has been a marked shift towards addressing broader population level issues requiring consideration of more demanding theories in philosophy political science and economics At the heart of bioethics new orientation is the goal of clarity on a complex set of questions in rationing and resource allocation Rationing and Resource Allocation in Healthcare Essential Readings provides key excerpts from seminal and pertinent texts and case studies about these topics contextualized by original introductions The volume is divided into three broad sections Conceptual Distinctions and Ethical Theory Rationing and Resource Allocation Containing the most important and classic articles surrounding the theoretical and practical issues related to rationing and how to allocate scarce medical resources this collection aims to assist and inform those who wish to be a part of bioethics 21st century shift including practitioners and policy makers and students and scholars in the health sciences philosophy law and medical ethics *What is Enough?* Carina Fourie, Annette Rid, 2017 Sufficitarian approaches maintain that justice should aim for each person to have enough But what is sufficiency What does it imply for health or health care justice In this volume philosophers bioethicists health policy makers and health economists assess sufficiency and its application to health and health care in fifteen original contributions **Aktuelle Rechtsfragen der Palliativversorgung** Albrecht Wienke, Kathrin Janke, Thomas Sitte, Toni Graf-Baumann, 2016-02-17 Das Buch bietet eine aktuelle Darstellung der in der stationären und in der speziellen ambulanten palliativmedizinischen Versorgung SAPV der Bevölkerung in Deutschland bestehenden Rechtsfragen und deren Lösung Das Werk bezieht Stellung zu den Bedingungen der medikamentösen Versorgung zum Leistungsanspruch Privatversicherter der noch nicht durchgängig besteht und auch zur Übertragung rechtlicher Tätigkeiten an Nicht-Ärzte die rechtlich in einer Grauzone stattfindet Untersucht werden der Einsatz der Palliativversorgung als intermittierende Behandlung nicht nur am Lebensende sondern frühzeitig und parallel zur kurativen Therapie und als sektoren übergreifende Versorgung für alle Versicherten Ein weiterer Schwerpunkt liegt in der Forderung der Aufklärung und Information über die Möglichkeiten hospiz palliativer Versorgung bei gleichzeitigem Auf und Ausbau der notwendigen Strukturen in den Vordergrund der derzeitigen Bemühungen zu stellen Erst nach ausreichender Umsetzung dieser Voraussetzungen sollte eine Neuregelung zum Themenkreis rechtlich assistierter Suizid erfolgen Die ausführlichen Empfehlungen der Deutschen Gesellschaft für Medizinrecht DGMR e V zu aktuellen Rechtsfragen der Palliativversorgung sind im Wortlaut im Anhang abgedruckt **Resolving Ethical Dilemmas** Bernard Lo, 2009-01-01 This timely resource offers clinicians expert guidance in approaching a wide range of ethical dilemmas and developing an action plan This edition includes a new chapter on ethical issues in cross cultural medicine and new material on

conscientious objection by physicians in reproductive health and other areas ICU Resource Allocation in the New Millennium David Crippen, 2012-09-14 Intensive care medicine is one of the fastest growing services provided by hospitals and perhaps one of the most expensive Yet in response to the global financial crisis of the last few years healthcare funding is slowing or decreasing throughout the world How we manage health care resources in the intensive care unit ICU now and in a future that promises only greater cost constraints is the subject of this book the third in an informal series of volumes providing a global perspective on difficult issues arising in the ICU Taking 12 developed countries as their focus leading experts provide a country by country analysis of current ICU resource allocation A second group of experts use the chapters as a departure point to analyze current ICU resource allocation at the level of the global medical village The process is repeated but with an eye toward the future first country by country then at the global level that takes into account initiatives and reforms now underway A fictional healthcare plan the Fair Equitable Healthcare Plan is put forth to address weaknesses in existing approaches and healthcare experts and ethicists are invited to respond to its often provocative provisions Itself structured as a dialogue the book is an excellent way to start or to continue serious discussion about the allocation of ICU healthcare resources now and in the years ahead **The Hastings Center Guidelines for Decisions on Life-Sustaining Treatment and Care Near the End of Life** Nancy Berlinger, Bruce Jennings, Susan M. Wolf, 2013-04-26 This major new work updates and significantly expands The Hastings Center's 1987 Guidelines on the Termination of Life Sustaining Treatment and Care of the Dying Like its predecessor this second edition will shape the ethical and legal framework for decision making on treatment and end of life care in the United States This groundbreaking work incorporates 25 years of research and innovation in clinical care law and policy It is written for physicians nurses and other health care professionals and is structured for easy reference in difficult clinical situations It supports the work of clinical ethicists ethics committee members health lawyers clinical educators scholars and policymakers It includes extensive practical recommendations Health care reform places a new set of challenges on decision making and care near the end of life The Hastings Center Guidelines are an essential resource Bioethics Reenvisioned Nancy M. P. King, Gail E. Henderson, Larry R.

Churchill, 2022-11-29 Bioethics needs an expanded moral vision Born in the ferment of the 1970s the field responded to rapid developments in biomedical technology and injustices in clinical care and research Since then bioethics has predominantly focused on respect for autonomy beneficence and nonmaleficence and the zero sum lifeboat ethics of distributive justice applying these principles almost exclusively within the walls of medical institutions It is now time for bioethics to take full account of the problems of health disparities and structural injustice that are made newly urgent by the COVID 19 pandemic and the effects of climate change This book shows why and how the field must embrace a broader and more meaningful view of justice principally by incorporating the tools and insights of the social sciences epidemiology and public health Nancy M P King Gail E Henderson and Larry R Churchill make the case for a more social understanding and application of justice a

deeper humility in assessing expertise in bioethics consulting a broader and more relevant research agenda and greater appreciation of the profound health implications of global warming

The Hackett Introduction to Medical Ethics Matthew Altman, Cynthia Coe, 2025-08-18 The Hackett Introduction to Medical Ethics addresses key debates and analyzes prominent ethical perspectives on clinical medicine healthcare policy and human experimentation Using numerous examples and case studies Altman and Coe apply value theory to contemporary medical practice and trace the repercussions for such philosophical issues as autonomy death and justice The book invites a range of readers to investigate urgent moral questions at the intersection of the body and social institutions Free online resources to support The Hackett Introduction to Medical Ethics will be available on the book title page at www.hackettpublishing.com in early fall 2025 Resources will include PowerPoint lecture slides a sample syllabus links to case studies to help facilitate small group discussion and apply theoretical concepts and more

Intensive Care Medicine in 10 Years Mitchell P. Fink, Peter M. Suter, William J. Sibbald, 2006-10-25 This book identifies trends in critical care medicine that will form the basis for practice over the next ten years Predicting the future is always risky Nevertheless the ideas articulated in this book are likely to serve as a road map for intensivists hospital administrators and governmental leaders interested in healthcare as they seek to improve the quality and efficiency of hospital based services

Rehabilitation Ethics for Interprofessional Practice Laura L. Swisher, Charlotte Brasic Royeen, 2019-02-26 Rehabilitation professionals need to be grounded in moral principles in order to meet the needs of patients and effectively collaborate in interprofessional healthcare teams Rehabilitation Ethics for Interprofessional Practice introduces a common language and theory for interdisciplinary ethics education and practice while establishing a moral foundation and guiding readers in how to put ethical principles into action The text begins by describing the moral commons a framework for ethical deliberation characterized by mutual respect for personal and professional identity common language inclusion of relevant stakeholders and the dialogic process The authors then describe the Dialogic Engagement Model DEM gives professionals a structure and space for learning and understanding within their teams as they strive to provide ethical patient care Rehabilitation Ethics for Interprofessional Practice is forward looking grounded in both theory and practice A resource for faculty

Clinical Ethics Consultation John-Stewart Gordon, 2016-05-23 This volume brings together researchers from different European countries and disciplines who are involved in Clinical Ethics Consultation CEC The work provides an analysis of the theories and methods underlying CEC as well a discussion of practical issues regarding the implementation and evaluation of CEC The first section deals with different possible approaches in CEC The authors explore the question of how we should decide complex cases in clinical ethics that is which ethical theory approach or method is most suitable in order to make an informed ethical decision It also discusses whether clinical ethicists should be ethicists by education or rather well trained facilitators with some ethical knowledge The second chapter of this book focuses on practical aspects of the implementation of CEC structures The analysis of experienced clinical ethicists refers to macro

and micro levels in both developed and transitional countries Research on the evaluation of CEC is at the centre of the final chapter of this volume In this context conceptual as well as empirical challenges with respect to a sound approach to judgements about the quality of the work of CECs are described and suggestion for further research in this area are made In summary this volumes brings together theorists and healthcare practitioners with expertise in CEC In this respect the volume serves as good example for a multi and interdisciplinary approach to clinical ethics which combines philosophical reasoning and empirical research

Encyclopedia of Medical Decision Making Michael W. Kattan, 2009-08-15 Decision making is a critical element in the field of medicine that can lead to life or death outcomes yet it is an element fraught with complex and conflicting variables diagnostic and therapeutic uncertainties patient preferences and values and costs Together decisions made by physicians patients insurers and policymakers determine the quality of health care quality that depends inherently on counterbalancing risks and benefits and competing objectives such as maximizing life expectancy versus optimizing quality of life or quality of care versus economic realities Broadly speaking concepts in medical decision making MDM may be divided into two major categories prescriptive and descriptive Work in the area of prescriptive MDM investigates how medical decisions should be done using complicated analyses and algorithms to determine cost effectiveness measures prediction methods and so on In contrast descriptive MDM studies how decisions actually are made involving human judgment biases social influences patient factors and so on The Encyclopedia of Medical Decision Making gives a gentle introduction to both categories revealing how medical and healthcare decisions are actually made and constrained and how physician healthcare management and patient decision making can be improved to optimize health outcomes Key Features Discusses very general issues that span many aspects of MDM including bioethics health policy and economics disaster simulation modeling medical informatics the psychology of decision making shared and team medical decision making social moral and religious factors end of life decision making assessing patient preference and patient adherence and more Incorporates both quantity and quality of life in optimizing a medical decision Considers characteristics of the decisionmaker and how those characteristics influence their decisions Presents outcome measures to judge the quality or impact of a medical decision Examines some of the more commonly encountered biostatistical methods used in prescriptive decision making Provides utility assessment techniques that facilitate quantitative medical decision making Addresses the many different assumption perspectives the decision maker might choose from when trying to optimize a decision Offers mechanisms for defining MDM algorithms With comprehensive and authoritative coverage by experts in the fields of medicine decision science and cognitive psychology and healthcare management this two volume Encyclopedia is a must have resource for any academic library
