

## JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

**Human Rights Obligations of Non-State Armed Groups** Daragh Murray, 2016-05-05 This book is concerned with the international regulation of non state armed groups Specifically it examines the possibility of subjecting armed groups to international human rights law obligations First addressed is the means by which armed groups may be bound by international law Of particular interest is the de facto control theory and the possibility that international law may be applied in the absence of direct treaty regulation Application of this theory is dependent upon an armed group's establishment of an independent existence as demonstrated by the displacement of state authority This means that armed groups are treated as a vertical authority thereby maintaining the established hierarchy of international regulation At issue therefore is not a radical approach to the regulation of non state actors but rather a modification of the traditional means of application in response to the reality of the situation The attribution of international human rights law obligations to armed groups is then addressed in light of potential *ratione personae* restrictions International human rights law treaties are interpreted in light of the contemporary international context on the basis that an international instrument has to be applied within the framework of the entire legal system prevailing at the time of interpretation Armed groups status as vertical authorities facilitates the vertical application of international human rights law in a manner consistent with both the object and purpose of the law and its foundation in human dignity Finally if international human rights law is to be applied to armed groups its application must be effective in practice A context dependent division of responsibility between the territorial state and the armed group is proposed The respect protect fulfil framework is adapted to facilitate the application of human rights obligations in a manner consistent with the control exerted by both the state and the armed group Daragh Murray's book analyses the practical and theoretical difficulties associated with the topic of the international human rights obligations of non state armed groups by
