Congress. House,1958 **Tiger Check** Steven A. Fino,2017-11-01 How did American fighter pilots respond to the
challenges posed by increasing automation Spurred by their commanders during the Korean War to be tigers aggressive and
tenacious American fighter pilots charged headlong into packs of fireball spewing enemy MiGs relying on their keen eyesight
piloting finesse and steady trigger fingers to achieve victory But by the 1980s American fighter pilots vanquished their foes
by focusing on a four inch square cockpit display manipulating electromagnetic waves and launching rocket propelled guided
missiles from miles away In this new era of automated long range air combat can fighter pilots still be considered tigers
Aimed at scholars of technology and airpower aficionados alike Steven A Fino s Tiger Check offers a detailed study of air to
air combat focusing on three of the US Air Force s most famed aircraft the F 86E Sabre the F 4C Phantom II and the F 15A
Eagle Fino argues that increasing fire control automation altered what fighter pilots actually did during air to air combat
Drawing on an array of sources as well as his own decade of experience as an F 15C fighter pilot Fino unpacks not just the
technological black box of fighter fire control equipment but also fighter pilots attitudes toward their profession and their
evolving aircraft He describes how pilots grappled with the new technologies acutely aware that the very systems that
promised to simplify their jobs while increasing their lethality in the air also threatened to rob them of the quintessential
albeit mythic fighter pilot experience Finally Fino explains that these new systems often required new unique skills that took

time for the pilots to identify and then develop Eschewing the typical great machine or great pilot perspectives that dominate aviation historiography Tiger Check provides a richer perspective on humans and machines working and evolving together in the air The book illuminates the complex interactions between human and machine that accompany advancing automation in the workplace *Flying Magazine* ,1991-10 **Air Reserve Forces Review** ,1965 *Monthly Catalogue, United States Public Documents* ,1991 Monthly Catalog of United States Government Publications ,1984 **Bibliography of Scientific and Industrial Reports** ,1946 **Cannon Air Force Base (AFB), AFSOC Assets Beddown** ,2007
