**Fundamental Principles of Finance** Robert Irons,2019-07-25 Finance is the study of value and how it is determined

Individuals small businesses and corporations regularly make use of value determinations for making strategic decisions that affect the future outcomes of their endeavors The importance of accurate valuations cannot be overestimated valuing assets too highly will lead to investing in assets whose costs are greater than their returns while undervaluing assets will lead to missed opportunities for growth In some situations such as a merger or an acquisition the outcome of the decision can make or break the investor The need for solid financial skills has never been more pressing than in today s global economy The Fundamental Principles of Finance offers a new and innovative approach to financial theory The book introduces three fundamental principles of finance that flow throughout the theoretical material covered in most corporate finance textbooks These fundamental principles are developed in their own chapter of the book then referred to in each chapter introducing financial theory In this way the theory is able to be mastered at a fundamental level The interactions among the principles are introduced through the three precepts which help show the impact of the three principles on financial decision making This fresh and original approach to finance will be key reading for undergraduate students of introduction to finance corporate finance capital markets financial management and related courses as well as managers undertaking MBAs

 often provide fodder for unseemly headlines and some are even compared unflatteringly with locusts today's business leaders  
 are called upon as never before to demonstrate the moral justification for their activities and to ensure that it is understood  
 by all the key stakeholders of a company What is required is nothing less than a management renaissance based on a  
 thoroughgoing concept of corporate leadership there is no less a need for decision makers who hold themselves to the  
 highest standards with a positive perception of their function as agents of dissemination and who are committed to the good  
 not only of their firm but also of society in general Particularly in today's environment of significant movements of goods the  
 highest priority is accorded to the social and labor policy elements of company management For its part the State must create  
 advantageous framework conditions and promote the willingness to accept risk that is fundamental to the entrepreneurial  
 spirit A social constitutional state with a liberal social structure has always been and remains the prime concern of  
 democratically spirited forces everywhere When managers live up to the expectations with which they are entrusted they  
 lend the social market economy often misunderstood and sometimes even misused a new luster This in turn fulfils the hopes  
 and expectations of those Europeans for whom the development of pan European structures stands for the recovery from post
