This practical perspective is driven by the decades-long fund management and stockbroking experience of the authors. Investment knowledge is a core competence required by large numbers of organisations and individuals in the financial services industry. This new edition will be an invaluable resource for financial advisers, financial planners, and those engaged in advisory and/or support functions across the investment industry. Those taking investment modules in third-level educational institutes will find this book to be a useful complement to the more academically focused textbooks.
