Further Daily Deliberations English Edition:

Deliberation Day Bruce Ackerman, James S. Fishkin, 2008-10-01 div Bruce Ackerman and James Fishkin argue that Americans can revitalize their democracy and break the cycle of cynical media manipulation that is crippling public life They propose a new national holiday Deliberation Day for each presidential election year On this day people throughout the country will meet in public spaces and engage in structured debates about issues that divide the candidates in the upcoming presidential election Deliberation Day is a bold new proposal but it builds on a host of smaller experiments Over the past decade Fishkin has initiated Deliberative Polling events in the United States and elsewhere that bring random and representative samples of voters together for discussion of key political issues In these events participants greatly increase their understanding of the issues and often change their minds on the best course of action Deliberation Day is not merely a novel idea but a feasible reform Ackerman and Fishkin consider the economic organizational and political questions raised by their proposal and explore its relationship to the larger ideals of liberal democracy DIV *The Future of Self-Governing, Thriving Democracies* Brigitte Geissel, 2022-11-15 This book offers a new approach for the future of democracy by advocating to give citizens the power to deliberate and to decide how to govern themselves Innovatively building on and integrating components of representative deliberative and participatory theories of democracy with empirical findings the book provides practices and procedures that support communities of all sizes to develop their own visions of democracy It revitalizes and reinfuses the democratic spirit going back to the roots of democracy as an endeavor by with and for the people and should inspire us in our search for the democracy we want to live in This book is of key interest to scholars and students in democracy democratic innovations deliberation civic education and governance and further for policy makers civil society groups and activists It encourages us to reshape democracy based on citizens perspectives aspirations and preferences

Deliberation and Development Patrick Heller, Vijayendra Rao, 2015-07-13 Deliberation is the process by which a group of people each with equal voice can via a process of discussion and debate reach an agreement Deliberation and Development attempts to do two things First it rethinks the role of deliberation in development and shows that it has potential well beyond a narrow focus on participatory projects Deliberation if properly instituted has the potential to have a transformative effect on many if not all aspects of development and especially in addressing problems of collective action coordination and entrenched inequality This has broad implications both at the global and local level Second the book demonstrates that taking deliberation seriously calls for a different approach to both research and policy design and requires a much greater emphasis on the processes by which decisions are made rather than an exclusive focus on the outcomes Deliberation and Development contributes to a broader literature to understand the role of communicative processes in development

Dialogue and Deliberation Josina M. Makau, Debian L. Marty, 2013-03-19 Across our differences people everywhere wish to be heard to be known and to be understood When these needs are met individuals have the potential to flourish and

communities can work together in common cause Yet in the current argument culture the power of communication to meet these needs remains largely untapped and the ability to resolve shared problems is compromised This book explores the roots of this communication crisis and offers a realistic means to reconnect to build community and to make just and wise decisions together **European Witch Trials (RLE Witchcraft)** Richard Kieckhefer,2012-04-27 In popular tradition

witches were either practitioners of magic or people who were objectionable in some way but for early European courts witches were heretics and worshippers of the Devil This study concentrates on the period between 1300 and 1500 when ideas about witchcraft were being formed and witch hunting was gathering momentum It is concerned with distinguishing between the popular and learned ideas of witchcraft The author has developed his own methodology for distinguishing popular from learned concepts which provides adequate substantiation for the acceptance of some documents and the rejection of others This distinction is followed by an analysis of the contents of folk tradition regarding witchcraft the most basic feature of which is its emphasis on sorcery including bodily harm love magic and weather magic rather than diabolism The author then shows how and why learned traditions became superimposed on popular notions how people taken to court for sorcery were eventually convicted on the further charge of devil worship The book ends with a description of the social context of witch accusations and witch trials *Public Deliberation on Climate Change* Lorelei L. Hanson,2018-02-05 There

exists in both academic and political circles a growing interest in public deliberation as an alternative to the sometimes adversarial and polarizing public engagement activities that result in the pitting of experts against lay people Proponents of public deliberation claim that a more deliberative process can engage a diversity of participants in a more guided process that better balances expert knowledge and citizen inclusion Such an approach holds particular promise where citizens and governments engage in discussions of the most complex and intractable issues like climate change Given the host of challenges climate governance presents and the global consequences of our response to them the experience and knowledge shared by Hanson and the contributors to *Public Deliberation on Climate Change* provide an important framework for advancing public conversations and processes on this and other wicked problems The lessons contained in the volume were gained as a result of a five year multidisciplinary community university research project called Alberta Climate Dialogue ABCD which drew together scholars practitioners citizens civil society members and government officials from across Alberta at four public deliberations By highlighting the value tensions and trade offs and examining the impact that the design of the deliberations has on policy and the creation of conditions that encourage exchange the contributors aim to build capacity within our institutions and society to find new ways to discuss and solve complex problems **Decision and Deliberation**

David Clune,Gareth Griffith,2006 This book is an authoritative history of the NSW Parliament from its establishment in 1856 to 2003 It gives comprehensive accounts of both the Legislative Assembly and the Legislative Council including analyses of their performance based on contrasting liberal and executive models of Parliament The history of the Parliament is

contextualised by the changing political background in which it operated over 150 years It is enlivened by portraits of colourful Members such as WP Paddy Crick drunken brawler and master of Parliamentary procedure and accounts of incidents such as George Fuller s seven hour Government and the siege by trade unionists in 2003 On a broader level the book is a dissertation on the nature of State politics and Parliaments and on the theoretical study of parliamentary institutions A NSW Sesquicentenary of Responsible Government publication

Deliberation, Democracy, and the Media Simone Chambers, Anne N. Costain, 2000 Interdisciplinary discussion of the ways in which the media is and can be used in the service of deliberative equality within the public sphere and of the ways in which the media can function to both facilitate and inhibit deliberative democracy back cover

Bias alleviation and value activation in citizens' juries: Enhancing deliberation and civic engagement in sustainable food systems Burger, Maximilian Nicolaus, Nilgen, Marco, Volla, Björn, 2025-02-24 Citizens Juries CJs are increasingly implemented as a means to engage citizens in deliberation on complex policy challenges yet their effectiveness can be undermined by cognitive biases and limited value driven reasoning This study evaluates the impact of bias alleviation and value activation exercises on deliberative quality and civic engagement in four CJs conducted in Bogotá Colombia Two juries incorporated these exercises as treatment interventions and two served as controls with extended deliberation time Results reveal that deliberation itself modestly reduced confirmation bias compared to non participants while the structured interventions enhanced participants awareness of biases and value based reasoning However the interventions did not significantly reduce the occurrence of biases and led to a perceived trade off with deliberation time Participation in CJs also showed improved trust in science and political self efficacy demonstrating their potential to foster civic engagement These findings highlight the nuanced benefits and limitations of integrating debiasing interventions into mini publics to enhance deliberative quality and equity in policymaking

Radio, Public Life and Citizen Deliberation in South Africa Sarah Chiumbu, Gilbert Motsaathebe, 2021-05-24 This book critically analyses the important role of radio in public life in post apartheid South Africa As the most widespread and popular form of communication in the country radio occupies an essential space in the deliberation and the construction of public opinion in South Africa From just a few state controlled stations during the apartheid era there are now more than 100 radio stations reaching vast swathes of the population and providing an important space for citizens to air their views and take part in significant socio economic and political issues of the country The various contributors to this book demonstrate that whilst print and television media often serve elite interests and audiences the low cost and flexibility of radio has helped it to create a common space for national dialogue and deliberation The book also investigates the ways in which digital technologies have enhanced the consumption of radio and produced a sense of imagined community for citizens including those in marginalised communities and rural areas This book will be of interest to researchers with an interest in media politics and culture in South Africa specifically as well as those with an interest in broadcast media more generally

Congressional

Deliberation Jordan T. Cash, Kevin J. Burns, 2024-07-26 From John Adams's 1774 diary entries on debates in the Continental Congress to the first ouster of a seated Speaker of the House in U.S. history in 2023 Jordan T. Cash and Kevin J. Burns's *Congressional Deliberation* offers an edited and historically contextualized selection of primary sources highlighting key turning points in the history of the U.S. Congress. Via its diverse documentary record and often by way of showcasing the lively cut and thrust of historic House and Senate debates, *Congressional Deliberation* sheds light on such formative issues in Congressional history as war powers and foreign policy, impeachment, civil rights, representation and apportionment, filibusters, federalism, oversight and investigation, legislative leadership, and many more. It will prove a valuable resource to all students of the U.S. Congress and of representative government.

Deliberation, Rhetoric, and Emotion in the

Discourse on Climate Change in the European Parliament Vebjørn Roald, Linda Sangolt, 2012

Deliberation, Participation and Democracy Shawn W. Rosenberg, 2007-11-09 Political participation is falling and citizen alienation and cynicism is increasing. This volume brings together the first work of this kind by leading scholars in the US and Europe to consider the issue. Four of the leading philosophers of deliberative democracy contribute their commentaries on the groundbreaking empirical research.

The Future of Investment Arbitration Catherine A. Rogers, Roger P. Alford, 2009

Investment arbitration is at the cutting edge of international law and dispute resolution and is predicted to be a major factor in the development of the global economic system in years to come. This one-volume monograph contains contributions from leading experts on a wide range of topics of both theoretical importance and practical implication that will affect the future of investment arbitration. The highly innovative chapters combine to form a constructive and valuable discussion for all in the arbitration field. The contributors chosen to represent the full spectrum of perspectives are leading arbitration experts from all over the world, including ICSID insiders, US government officials, UNCTAD research personnel, seasoned investment arbitrators and counsel, and renowned legal scholars. The book is divided into three themes, with the first centering on the adequacy of UNCITRAL and ICSID arbitration rules, with particular attention to recent and proposed changes. The second theme focuses on the future of bilateral investment treaties, discussing trends in the interpretation of treaty provisions and the debate concerning the efficacy of the treaties in benefiting developing countries. The third theme revolves around the public function of investment arbitration decisions, including the use of arbitration to resolve disputes between sovereigns and the arbitrators' role as a guardian of international public policy. *The Future of Investment Arbitration* is unique in its outstanding range of topics and the expertise of the contributors. It previews and guides future directions in the field as well as discussing the larger policy implications of specific rules. It includes cutting-edge analysis of empirical research regarding BITS that is essential to evaluating many assumptions about investment law and arbitration. Finally, the book takes a broad perspective, examining the rules discussed within the larger structural context of investment arbitration and drawing investment arbitration into the wider setting of international law and corporate governance.
