Educating the next generation of scientists Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2011-01-20 A strong supply of people with science technology engineering and maths skills is important for the UK to compete internationally The starting point is a good education for children and young people in science and maths The numbers studying separate GCSE biology chemistry and physics known as Triple Science when studied together have risen by almost 150% between 2004 05 and 2009 10 Attainment has also improved as take up has increased Nevertheless there is a risk that this progress will not be maintained There are still not enough teachers with strong subject knowledge in science and maths entering the profession In 2009 10 there were over 115 000 entries to GCSE biology 113 000 to chemistry and 112 000 to physics Another 40 000 pupils entered A level chemistry and almost 70 000 A level maths If the higher numbers of pupils taking science and maths are to achieve good results they need to be taught by teachers with the specialist knowledge to teach these subjects well Teaching environments are also vitally important in improving take up and achievement in science but there is evidence that science facilities in many schools are unsatisfactory and even unsafe Furthermore in some schools advice and guidance on science and maths related careers is poor The Department must

approach the challenge of improving school science and maths through a coherent system wide strategy rather than as a number of initiatives operating in isolation As more autonomy is given to schools the Department must develop an accountability framework that gives schools strong incentives to put all key elements in place for the benefit of their pupils

Passing the UKCAT and BMAT 2011 6e Glenn Hutton,Rosalie Hutton,Felicity Taylor,2011-04-11 This revised and updated 2011 edition is the most comprehensive guide available to the UKCAT and BMAT Readers will find all they need to face the tests with confidence fulfil their potential and succeed in their application whichever universities they are applying to New questions have been added to the extensive practice sections of both the UKCAT and BMAT In addition this essential text takes would be doctors through everything they need to know from writing their personal statements and preparing for interviews to time management and test taking strategies
