Working in Class Allison L. Hurst, Sandi Kawecka Nenga, 2016-01-18 More students today are financing college through debt but the burdens of debt are not equally shared The least privileged students are those most encumbered and the least able to repay All of this has implications for those who work in academia especially those who are themselves from less advantaged backgrounds Warnock argues that it is difficult to reconcile the goals of facilitating upward mobility for students from similar backgrounds while being aware that the goals of many colleges and universities stand in contrast to the recruitment and support of these students This combined with the fact that campuses are increasingly reliant on adjunct labor makes it difficult for the contemporary tenure track or tenured working class academic to reconcile his or her position in the academy

The Meritocracy Trap Daniel Markovits, 2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel

Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When The Meritocracy Trap reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people
