*The Last Laugh* Arjuna Ardagh,2013-05-01 I stood on the bridge just before midnight the wind from the ocean arriving in

violent blasts as if saying under its breath Jump motherf er jump This was the last of a string of attempted departures most orchestrated in my tired mind Always a bitter reminder of all that had been lost and destroyed by my foolishness When suicide feels like your best option you know something has gone horribly wrong and that s just how Matt Thomson felt He had lost everything his wife his children his job all his money and his front door key But everything changes when he meets Joey Murphy ex Merchant Marine entrepreneur teacher and wild man an enigmatic mixture of Forrest Gump Merlin and a long lost best friend Upon hearing Matt s woes Joey offers Matt a life changing deal he can t resist The life you know has been completely predetermined by automatic habits both your triumphs and your failures If you are really at the end of your rope these habits will drop away and you will be free I give you ten days starting today I will show you all you need to see It is up to you And with the deal struck Joey leads Matt on the roller coaster ride of his life a ten day adventure filled with dodging cop cars playing Blind Man s baseball on the edge of a cliff finding heaven in a Taco Bell and learning how to open the hearts of total strangers Joey introduces Matt to the True Teacher but also leads him to face his own deepest darkness and despair

Overcoming Barriers to Electric-Vehicle Deployment National Research Council,Transportation Research Board,Division on Engineering and Physical Sciences,Board on Energy and Environmental Systems,Committee on Overcoming Barriers to Electric-Vehicle Deployment,2013-06-18 The electric vehicle offers many promises increasing U S energy security by reducing petroleum dependence contributing to climate change initiatives by decreasing greenhouse gas GHG emissions stimulating long term economic growth through the development of new technologies and industries and improving public health by improving local air quality There are however substantial technical social and economic barriers to widespread adoption of electric vehicles including vehicle cost small driving range long charging times and the need for a charging infrastructure In addition people are unfamiliar with electric vehicles are uncertain about their costs and benefits and have diverse needs that current electric vehicles might not meet Although a person might derive some personal benefits from ownership the costs of achieving the social benefits such as reduced GHG emissions are borne largely by the people who purchase the vehicles Given the recognized barriers to electric vehicle adoption Congress asked the Department of Energy DOE to commission a study by the National Academies to address market barriers that are slowing the purchase of electric vehicles and hindering the deployment of supporting infrastructure As a result of the request the National Research Council NRC a part of the National Academies appointed the Committee on Overcoming Barriers to Electric Vehicle Deployment This committee documented their findings in two reports a short interim report focused on near term options and a final comprehensive report Overcoming Barriers to Electric Vehicle Deployment fulfills the request for the short interim report that addresses specifically the following issues infrastructure needs for electric vehicles barriers to deploying the infrastructure and possible roles of the federal government in overcoming the barriers This report also includes an initial discussion of the pros and cons of the possible roles This interim report does not address the committee s full statement of

task and does not offer any recommendations because the committee is still in its early stages of data gathering The committee will continue to gather and review information and conduct analyses through late spring 2014 and will issue its final report in late summer 2014 Overcoming Barriers to Electric Vehicle Deployment focuses on the light duty vehicle sector in the United States and restricts its discussion of electric vehicles to plug in electric vehicles PEVs which include battery electric vehicles BEVs and plug in hybrid electric vehicles PHEVs The common feature of these vehicles is that their batteries are charged by being plugged into the electric grid BEVs differ from PHEVs because they operate solely on electricity stored in a battery that is there is no other power source PHEVs have internal combustion engines that can supplement the electric power train Although this report considers PEVs generally the committee recognizes that there are fundamental differences between PHEVs and BEVs      *Telephone Directory, Boston and Its Vicinity* ,2002      **Lemon-Aid New Cars and Trucks**
