How The Beatles Rocked The World Stephen F Kelly, 2024-07-30 When the Beatles burst onto the pop scene in 1962 they not only took the music world by storm but they also brought with them a counter culture that was to have far reaching effects With their long hair humour and irreverent attitude towards authority they were a breath of fresh air to a generation who had grown weary of the greyness of the post war years Beatlemania was to unleash a revolution against an outdated age The 1950s with its oppressive and authoritarian attitudes was ready for change and young people desperate to escape suburbia with its stifling formality were set to lead that rebellion In politics fashion education the arts religion television women's rights and universities the time had come to challenge the old order And in came the swinging sixties with its more liberal attitudes offering hope of change and a more peaceful and just world The introduction of the contraceptive pill legalized abortion gay rights easier divorce and the relaxing of censorship were all part of this social revolution And it wasn't just in Britain The influence of the Beatles reverberated across Europe and most of all in America where teenagers not only campaigned against a war in Vietnam but also for civil rights in their own country This book tells the story of the Sixties and how the Beatles influence had such an impact on British society It's a social history of Britain told by Stephen Kelly who regularly watched the Beatles at the Cavern and experienced first hand the changes that were to take place

The Return of Oral Hermeneutics Tom Steffen, William Bjoeraker, 2020-05-01 Have Western exegetes turned an Eastern book into a Western one Has our fondness for a fixed printed text capable of being analyzed with precision and exactitude blinded us to other hermeneutic possibilities Does God require all people to be able to analyze grammar to interpret Scripture Does God assume all people can interpret Scripture through oral means The authors recognize the effects of centuries of literacy socialization that produced a blind spot in the Western Christian world the neglect by most in the academies agencies and assemblies of the foundational and forceful role orality had on the biblical text and teaching From the inspired spoken word of the prophets including Jesus pre text to the elite literate scribes who painstakingly hand printed the sacred text to post text interpretation and teaching the footprint of orality throughout the entire process is acutely visible to those having the oral aural influenced eyes of the Mediterranean ancients Could oral hermeneutics be the mother of relational theology

Global 1968 A. James McAdams, Anthony P. Monta, 2021-06-01 Global 1968 is a unique study of the similarities and differences in the 1968 cultural revolutions in Europe and Latin America The late 1960s was a time of revolutionary ferment throughout the world Yet so much was in flux during these years that it is often difficult to make sense of the period In this volume distinguished historians filmmakers musicologists literary scholars and novelists address this challenge by exploring a specific issue the extent to which the period that we associate with the year 1968 constituted a cultural revolution They approach this topic by comparing the different manifestations of this transformational era in Europe and Latin America The contributors show in vivid detail how new social mores innovative forms of artistic expression and cultural religious and political resistance were debated and tested on both sides of the Atlantic In some cases the desire to confront traditional beliefs and conventions had been percolating under the surface for years Yet they also find that the impulse to overturn the status quo was fueled by the interplay of a host of factors that converged at the end of the 1960s and accelerated the transition from one generation to the next These factors included new thinking about education and work dramatic changes in the self presentation of the Roman Catholic Church government repression in both the Soviet Bloc and Latin America and universal disillusionment with the United States The contributors demonstrate that the short and long term effects of the cultural revolution of 1968 varied from country to country but the period's defining legacy was a lasting shift in values beliefs lifestyles and artistic sensibilities Contributors A James McAdams Volker Schlöndorff Massimo De Giuseppe Eric Drott Eric Zolov William Collins Donahue Valeria Manzano Timothy W Ryback Vania Markarian Belinda Davis J Patrice McSherry Michael Seidman Willem Melching Jaime M Pensado Patrick Barr Meleji Carmen Helena T llez Alonso Cueto and Ignacio Walker

Knowing with New Media Lena Redman,2018-11-21 This cutting edge book considers how advances in technologies and new media have transformed our perception of education and focuses on the impact of the privatisation of digital tools as a mean of knowledge production Arguing that education needs to adapt to the modern learner the book s unique approach is based on a disassociation with the deeply ingrained attitude with which people have traditionally viewed education learning the existing symbolic systems of certain disciplines and then expressing themselves strictly within the operational modes of these systems The ways of knowledge production exploring recording representing making meaning of and sharing human experiences have been fundamentally transformed through the infusion of digital technologies into all aspects of human activity allowing learners to engage with their immediate natural social and cultural environments by capitalising on their individual abilities and interests This book proposes a new approach to teaching and learning termed cinematic bricolage which involves generating knowledge from heterogeneous resources in a do it yourself manner while making meaning through multimodal representations It shows how cinematic bricolage reconnects ways of knowing with ways of being empowering the individual with a sense of personal identity and responsibility helping to shape more aware social citizens
