Eiffel's Tower for Young People is a vivid, lively pageant of people and cultures meeting and competing on the world stage at the dawn of the modern era. The 1889 World's Fair was a worldwide event showcasing the cutting-edge cultural and technological accomplishments of the world's most powerful nations on the verge of a new century. France, with its long history of sophistication and cultivation and a new republican government, presented the Eiffel Tower, the world's tallest structure crafted from eighteen thousand pieces of wrought iron and 2.5 million rivets, as a symbol of national pride and engineering superiority. The United States, with its brash can-do spirit full of pride in its frontier and its ingenuity, presented the rollicking Wild West show of Buffalo Bill Cody and Annie Oakley and the marvelous new phonograph of Thomas Edison. With historical photos throughout, outsized personalities, squabbling artists, and a sprinkling of royalty, this dramatic history opens a window to a piece of the past that, in its passions and politics, is an unforgettable portrait of a unique moment in history. *Fun in Paris, 1988* Paul Ross, 1987. *My Life Journey from Darfur, Sudan to Boston, USA* Victor Zaki, 2020-12-03. Come along with me on the journey of my life starting from my birthplace in Darfur, Sudan, until I settled in Boston, Massachusetts. I will show you the details of life and culture in each of these small villages of Sudan where sometimes there was no electricity or clean water, but the people were very generous and welcoming. I set out to study and work hard to improve my situation and help the people around me, and I found happiness and enjoyed my life in each place. You will see how God miraculously helped me in every step of this adventure along the journey of my life from Darfur, Sudan to Boston, USA. *Midway to Redemption* Eléna Martina, 2015-11-19. In his desire to start a new life, a young Middle Eastern man alters his identity by legally changing his name and moving away. His past is horrifically tied to a contract-killing history that must be left behind with shame and sorrow. He begins his journey in the hope for a better existence, but at times he reflects on what life could have been like had things turned out differently. Countless lies, deceitful desires, a failed arranged marriage, and lost love inescapably darkened his chances at a respectable everyday life, but the past follows and surrounds him with new predicaments that force him to embark on the road to redemption. *Box Office*, 1951. **Judy's Annual**, 1889. **Japanese Syntax and Semantics** S.-Y. Kuroda, 2012-12-06. 1. Two main themes connect the papers on Japanese syntax collected in this volume: movements of noun phrases and case marking, although each in turn relates to other issues in syntax and semantics. These two themes can be traced back to my 1965 MIT dissertation. The problem of the so-called topic marker *wa* is a perennial problem in Japanese linguistics. I devoted Chapter 2 of my dissertation to the problem of *wa*. My primary concern there was transformational generative syntax. I was interested in the light that Chomsky's new theory could shed on the understanding of Japanese sentence structure. I generalized the problem of deriving *wa* phrases to the problem of deriving phrases accompanied by the quantifier-like particles *mo*, *demo*, *sae*, as well as *wa*. These particles *mo*, *demo*, and *sae* may roughly be equated with *a*, *so*, or *something like it*, and even *respectively*, and are

grouped together with wa under the name of huku zyosi as a subcategory of particles in Kokugogaku Japanese scholarship on Japanese grammar This taxonomy itself is a straightforward consequence of distributional analysis and does not require the mechanisms of transformational grammar My transformational analysis of wa and by extension that of the other huku zyosi consisted in formally relating the function of the post nominal use of wa to that of the post predicative use by means of what I called an attachment transformation

Barthes' Mythologies Today Pete Bennett, Julian McDougall, 2013-09-11 This is Barthes seminal text reimagined in a contemporary context by contemporary academics Through a revisiting of *Mythologies* a key text in cultural and media studies this volume explores the value these disciplines can add to an understanding of contemporary society and culture Leading academics in media English education and cultural studies here are tasked with identifying the new mythologies some fifty or so years on from Barthes original interventions The contributions in this volume then are readings of contemporary culture each engaging with a cultural event practice or text as mythological These readings are then contextualized by an introduction which reflects on the how of these engaging responses and an essay at the back of the book which replaces *Myth Today* with a reflection on the contemporary provenance of both Barthes and his most famous book Thus the book is at least two things at once whichever way you look a new *Mythologies* and a book about Barthes legacy an exploration of the place of theory in critical writing and a book about contemporary culture
