Hickok,2019-06-12 Asian populations are among some of the fastest growing cultural groups in the US While books on serving other target groups in libraries have been published e g disabled Latino seniors etc few books on serving library

users of Asian heritage have been written. Thus the timely need for this book. Rather than a generalized overview of Asians as a whole, this book has 24 separate chapters, each on 24 specific Asian countries, cultures of East, Southeast, and South Asia, with a wealth of resources for understanding, interacting with, and serving library users of each culture. Resources include cultural guides, both print and online, language helps with sample library vocabulary, Asian booksellers, nationwide cultural groups, professional literature, and more. Resources and suggestions are given for all three types of libraries: public, school, and academic, making this book valuable for all librarians. The demographics of each Asian culture, numbers, and distribution, plus history of immigration and international student enrollment, is also featured. As a bonus, each chapter spotlights a US public school and academic library providing model outreach to Asian library users. Additionally, this book provides a detailed description and analysis of libraries in each of the 24 Asian countries. The history, development, facilities, conditions, technology, classification systems, and more of public, school, and academic libraries are all discussed with detailed documentation. Country conditions influencing libraries and library use are also described. Literacy levels, reading, cultures, languages, and writing systems, educational systems, and more. Based on the author's 15 years of research and travels to Asia, this work is a must-have for all librarians.

**Health and Safety in Contemporary Britain** Paul Almond, Mike Esbester, 2018-12-30 This book analyses the perceived legitimacy of health and safety in post-1960 British public life. Since 2010, health and safety has appeared to be in crisis, being attacked by press, politicians, and public alike, but are these claims of crisis accurate? How have understandings of health and safety changed over the past 60 years? By exploring the history, culture, and operation of health and safety in contemporary Britain, this book provides a new assessment of an understudied but surprisingly far-reaching part of the British political and social landscape. Combining archival research with focus group, social survey, and oral history testimony, the book examines the historical background to health and safety, how health and safety has been enacted in public and in the workplace, the impact of changing economic, occupational, and social structures on the operation of health and safety, and the conflicts and interests that have shaped the area.

*Islamist Militancy in Bangladesh* Shafi Md Mostofa, 2021-09-01 This book seeks to investigate not only the causes of radicalization but also how radicalization has unfolded since 2009, based on an exhaustive review of the relevant literature and two stints of fieldwork in Bangladesh involving 71 in-depth interviews of highly credentialed individuals. This book looks at both local and global factors that have served to provoke young Bangladeshis, many of whom are from relatively well-educated backgrounds, to become religiously belligerent and eventually to turn into terrorists. Ideology, it is argued, plays a pivotal role in the radicalization process and justifies violence. Most importantly, ideology proffers solutions to the micro and macrocauses of commonly identifiable youth disaffection. This book mainly focuses on the Islamic State and Al Qaeda's exploitation of religious beliefs and their construction of a mobilizing apocalyptic narrative that strikes a chord with the young middle-class Muslims. Both

organizations target them for recruitment The book ends by proffering what is called a Pyramid Root Cause model which attempts to tie all the causative variables of radicalization into a connected explanation of what has been happening in Bangladesh over the last decade This book is of interest to scholars of political Islam international politics and security studies including terrorism and the politics of South Asia Hematopoiesis: Learning from in vitro and in vivo Models Jon Frampton,Anskar Y.
