Congress House,2003 Turbulence Across the Sea Elie Baranets,Andrew R. Novo,2024-11-07 Great Power competition is back On the two sides of the Atlantic however this concept often means different things While the United States is focused on China Europe is preoccupied with Russia Yet shifting American priorities toward Asia requires reconceptualizing the future role of NATO In Europe this shift has led to serious thought about how to achieve strategic autonomy that will allow Europe to guarantee its own security regardless of strategic choices made in Washington As Chinese strategy focuses on dividing European actors and making them more economically dependent on Beijing these developments may undermine Washington s influence in Europe while limiting potential European action against Chinese interests With a mix of research methodologies applied by scholars from both sides of the Atlantic Turbulence Across the Sea offers a comprehensive analysis of relations among European and North American actors in the context of strategic competition among the United States Europe Russia and China In doing so it demonstrates that a reaffirmation of transatlantic cooperation is necessary to maintain security in the face of aggressive moves by both Russia and China By analyzing attitudes from the perspective of both the various actors Britain France Germany and the European Union and various sectors intelligence cooperation foreign direct investments technology and the defense industry this book provides readers with a comprehensive perspective on the challenges and opportunities in the shifting landscape of security in the twenty first century **Annual Report** Illinois.
