and dividing the profession In a second section Horowitz shows the institutions and sources from which the struggle of ideas is nourished A third section shows how political life shapes the inner life of American sociology Horowitz gives a great deal of attention to international social science to the relationship of social science to public policy and to federal projects and grant agencies and their effects on research Irving Louis Horowitz was undoubtedly influential in shaping his field and *Professing Sociology* offers valuable insights into how ideas become part of the fabric of professional life As the new introduction by Howard G Schneiderman shows *Professing Sociology* provides a clear picture of sociology at the height of its importance

Symposium on Irving Louis Horowitz's *The Decomposition of Sociology* A. Javier Treviño, 1996 **The Decomposition of Sociology** Irving Louis Horowitz, 1993-10-14 Sociology writes Irving Louis Horowitz has changed from a central discipline of the social sciences to an ideological outpost of political extremism As a result the field is in crisis Some departments have been shut down others cut back research programs have dried up and the growth of professional organizations and student enrollments have been either curbed or atrophied In *The Decomposition of Sociology* Professor Horowitz for four decades a leading social scientist offers a frank and full account of the maelstrom engulfing this field Horowitz pulls no punches in this provocative volume He charges that much contemporary sociological theory has degenerated into pure critique strongly influenced by Marxist dogmatism Such thinking has a strong element of anti American and anti Western bias in which all questions have one answer the evil of capitalism and all problems one solution the good of socialism In criminology for instance he shows that high crime rates are seen as an expression of capitalist disintegration and criminal behavior a covert expression of radical action Indeed in one area after another Horowitz shows how this same formulaic thinking dominates the field resulting in a crude reductionist view of contemporary social life At a time when the world is moving closer to the free market and democratic norms he concludes such reductionist tendencies and ideological posturings are outmoded Horowitz offers an alternative He urges a larger vision of the social sciences one in which universities granting agencies and research institutes provide an environment in which research may be untainted by partisan agencies where policy choices will not be hindered by the prevailing cultural climate He counsels sociologists to move away from blind advocacy to meet the challenges of the twenty first century by incorporating the knowledge of other times and places and to take into account the shrinking globe in short to develop and maintain a new set of universal standards in this era of a world culture Here then is an eloquent plea for a revolution in sociology written by one of the field's foremost figures It offers as well a cautionary tale about the potentially devastating effect of ideology on scholarly pursuits
