The **SAFETY** and **INSTRUCTION** details should always be clearly visible, that is, nothing should obscure them. When you have finished the sign, each face will have water under a self-adhesive **SAFETY** decal that has no damage (or tear) that be replaced as soon as possible. New decals should be placed in the same location as the old one. When filling a new decal ensure the position is clean and dry before filling. Nothing can fill the air bubbles, are recommended to break under the decal.
