Stone, 2014-07-01 For four centuries the Polish Lithuanian state encompassed a major geographic region comparable to present day Poland Lithuania Belarus Ukraine Russia Latvia Estonia and Romania Governed by a constitutional monarchy that offered the numerous nobility extensive civil and political rights it enjoyed unusual domestic tranquility for its military strength kept most enemies at bay until the mid seventeenth century and the country generally avoided civil wars Selling grain and timber to western Europe helped make it exceptionally wealthy for much of the period The Polish Lithuanian State 1386 1795 is the first

account in English devoted specifically to this important era. It takes a regional rather than a national approach considering the internal development of the Ukrainian Jewish Lithuanian and Prussian German nations that coexisted with the Poles in this multinational state. Presenting Jewish history also clarifies urban history because Jews lived in the unincorporated private cities and suburbs which historians have overlooked in favor of incorporated royal cities. In the seventeenth and eighteenth centuries the private cities and suburbs often thrived while the inner cities decayed. The book also traces the institutional development of the Roman Catholic Church in Poland Lithuania one of the few European states to escape bloody religious conflict during the Reformation and Counter Reformation. Both seasoned historians and general readers will appreciate the many excellent brief biographies that advance the narrative and illuminate the subject matter of this comprehensive and absorbing volume.

The God Who Saves David W. Congdon, 2016-09-08 Christian universalism has been explored in its biblical philosophical and historical dimensions. For the first time *The God Who Saves* explores it in systematic theological perspective. In doing so it also offers a fresh take on universal salvation one that is postmetaphysical existential and hermeneutically critical. The result is a constructive account of soteriology that does justice to both the universal scope of divine grace and the historicity of human existence. In *The God Who Saves* David W. Congdon orients theology systematically around the New Testament witness to the apocalyptic inbreaking of God's reign. The result is a consistently soteriocentric theology. Building on the insights of Rudolf Bultmann Ernst Kasemann Eberhard Jungel and J. Louis Martyn he interprets the saving act of God as the eschatological event that crucifies the old cosmos in Christ. Human beings participate in salvation through their unconscious existential cocrucifixion in which each person is interrupted by God and placed outside of himself or herself. Both academically rigorous and pastorally sensitive *The God Who Saves* opens up new possibilities for understanding not only what salvation is but also who the God who brings about our salvation is. Here is an interdisciplinary exercise in dogmatic theology for the twenty-first century.
