has thousands of practice problems I have placed over 3100 videos on YouTube showing you how to work the problems³ I reviewed several years of past exams and placed enfaces on the easiest and most common questions Mastering these questions should yield a 75% to 80% If a student is already achieving this percentage the other guides or web site with random questions and covering all material might be best A book might be better for your student than the web sites for two reasons 1 The more common and easiest questions are using a ruler to measure The web designers don t know the size of your computer screen and can t determine if the student has measured correctly We can get a high percentage of these problems easily 2 When studying on a computer there are too many websites with the answers With a book parents can have greater assurance the work is being done This book is developed by a trained professional out of concern It is not the product of a large publishing house It is the results of one person who wants to help Best RegardsMark Shannon **Problem Solving 4 Today, Grade 5** Rebekah J. Stanley,2019 Problem Solving 4 Today Daily Skill Practice for fifth grade contains reproducible activities designed to help students learn critical math word problem solving skills with strategies such as drawing and using a tape diagram working backward finding a pattern and more
