Individual Behaviour in Developing Countries Oliver Fiala,2017-04-04 This study investigates the complex link between natural disasters individual behaviour in the form of an individual s risk taking propensity and level of trust and the demand for microinsurance Developing countries are particularly vulnerable to the impacts of natural hazards and climate change as they affect their development processes and set back poverty reduction efforts Using a unique data set for rural Cambodia based on a survey experimental games and a discrete choice experiment the study highlights the importance of perceptions expectations and psychological factors in decision making processes with substantial consequences for long term economic perspectives and poverty alleviation **Japan's Defense Engagement in the Indo-Pacific** Nanae Baldauff,2024-07-17

This original book systematically examines Japan s defense engagement with its strategic partners since the end of the Cold War based on Japan s national security strategy The author maps three defense engagement activities military exercises

capacity building and defense equipment transfer and technology cooperation and subsequently evaluates these against the three national security objectives deterrence cooperative security and the Free and Open Indo Pacific vision The book asks two important research questions why is Japan active in defense engagement with the armed forces of its strategic partners And what purposes do Japan s self defense forces pursue Through the ten carefully selected cases of strategic partners Australia India Indonesia Vietnam the Philippines ASEAN the UK France NATO and the EU the book follows a structured cross case comparison based on the analytical framework developed for the research It also discusses the evolution of Japan s postwar defense policy providing a solid background for the case studies The book overall argues that while the Japan US alliance is still the most indispensable Japan s strategic partnerships are a valuable instrument of deterrence that contributes to Japan s national security objectives In order to more effectively pursue these objectives and thus secure the national interest Japan must pursue a purpose driven defense engagement Minority Religions and Religious Tolerance Zoe

Knox, Emily B. Baran, 2025-09-04 This book is founded on a simple premise that Jehovah s Witnesses are a crucial litmus test for tolerance When Witnesses do not enjoy basic freedoms to practice their faith scholars should consider what their treatment reveals about the broader state of tolerance and respect for religious pluralism and religious minority groups They should also examine how the Witnesses struggle for acceptance has shaped religious freedom and the protections enshrined in law in many modern states in the twenty first century This is what the authors call the Jehovah s Witness test The contributors have run the JW test across a range of countries from Egypt and Mexico to Russia and South Korea addressing religious political and medical opposition and their outcomes for modern states and societies They bring to their conclusions a wealth of perspectives among them are medical experts sociologists political scientists historians anthropologists and representatives of the Witness community Taken together this volume is a call for scholars to look to the treatment of Jehovah s Witnesses as a barometer for the overall health of religious tolerance and basic civil liberties in our contemporary world

The Meat Crisis Joyce D'Silva, John Webster, 2017-08-23 Meat and dairy production and consumption are in crisis Globally 70 billion farm animals are used for food production every year It is well accepted that livestock production is a major contributor to greenhouse gas emissions The Food and Agriculture Organization of the United Nations FAO predicts a rough doubling of meat and milk consumption in the first half of the 21st century with particularly rapid growth occurring in the developing economies of Asia What will this mean for the health and wellbeing of those animals of the people who consume ever larger quantities of animal products and for the health of the planet itself The new edition of this powerful and challenging book explores the impacts of the global growth in the production and consumption of meat and dairy including cultural and health factors and the implications of the likely intensification of farming for both small scale producers and for animals Several chapters explore the related environmental issues from resource use of water cereals and soya to the impact of livestock production on global warming and issues concerning biodiversity land use and the impacts of different farming

systems on the environment A final group of chapters addresses ethical and policy implications for the future of food and livestock production and consumption Since the first edition published in 2010 all chapters have been updated three original chapters re written and six new chapters added with additional coverage of dietary effects of milk and meat antibiotics in animal production and the economic political and ethical dimensions of meat consumption The overall message is clearly that we must eat less meat to help secure a more sustainable and equitable world

Digital Health Applications: Acceptance, Benefit Assessment, and Costs from the Perspective of Patients and Medical Professionals Tonio Schoenfelder ,Tom Schaal,Anja Mocek,2024-11-12 Digital health applications DHAs are increasingly being used in patient care in various healthcare systems around the world In some countries such as Belgium and Germany legal frameworks already allow for DHA integration into standard care and their prescription and uniform reimbursement via the patient s health insurance In many other European countries and the USA such a process is still in development DHAs are primarily used by patients themselves but also in consultation with physicians therapists or other healthcare providers They offer the potential for improved health outcomes and increased access to health services especially in rural areas and may lead to an overall improvement in the quality of care The validity of studies on the effects of DHAs on patients and health care systems in general is currently limited since study methods applied do often not allow for drawing causal relationships and most studies focus only on patient outcomes but do not assess how traditional care processes need to be adapted so that DHAs can be effective Therefore unambiguous evidence on which patient relevant outcomes can be improved specifically as a result of integrating DHA into the process of care is currently lacking
